In addition to the details required on the reverse, clear informations are given below under the following heads :—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken, or has agreed to take, in order to make good the deficiency.	The amount of instalments each year will be met from the sum of Rs. 2,000 set aside each year for the construction of the pucca surface drains.
(*b*) The reserve of taxation or other possible means of increase in the revenues of the municipality.	Nil.
(*c*) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved, and the amount still payable.	There remains a balance of loan of Rs. 19,000 previously granted in 1925-26 for Suri Water Supply Scheme (*vide* Government of Bengal's letter No. 417T.—P.H., dated the 6th September 1926). The first two instalments out of five instalments of Rs. 4,634 (odd) each towards its repayment have already been paid and the rest three instalments will be paid from the promised contribution of the District Board towards the Water Works scheme. There has also been made an application for a loan of Rs. 40,000 to be paid during the year 1927-28 for completing Suri Water Supply Scheme, and this loan is resolved to be repaid in twenty-eight annual instalments. The first three instalments out of which of Rs. 7,300, Rs. 7,012-8 and Rs. 6,725, respectively, will be paid from Rs. 15,000, expected to be collected during three years commencing from 1928-29, by giving house connections to a hundred quarters at Rs. 150 each, together with an annual saving of Rs. 1,800 from water rates and a very small sum from the General Fund; and the rest twenty-five instalments of Rs. 1,913 (odd) each will be paid from the annual savings of water rates together with a negligibly small sum from General Fund.
(*d*) Any explanations in regard to receipts and expenditure to show the true financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.	The normal surplus as shown in column 20 on the reverse shows a negative figure. The reason is that the amount of Rs. 4,634 (odd) under "Repayment of loan" in column 19, being the first instalment towards the repayment of loan of Rs. 19,000 is shown under "Ordinary expenditure", whereas the amount of Rs. 5,000 (shown under "Receipt of abnormal character" in column 15) received on account of second instalments out of the six promised annual contributions from District Board for Suri partial Water Works Scheme, from which the instalments of repayment of loan of Rs. 19,000 was resolved to be paid, was not included under "Ordinary income." The fact is that the District Board promised a grant of Rs. 30,000 for Suri Water Supply Scheme, but as the District Board was unable to pay the whole amount all at a time and as there was a demand of Rs. 19,000 for taking up the Water Works Scheme, the amount of Rs. 19,000 was borrowed from Government and its repayment each year was proposed to be made from the District Board's amount of contribution of Rs. 5,000 each year.

Summary.—During the week the rainfall was generally light to moderate. Sowing of winter paddy in seedbeds and transplantation of seedlings are progressing under favourable conditions. Weeding of jute and autumn paddy is nearly finished in East and North Bengal and is still in progress in West Bengal. The standing crops are growing well. Distress continues to prevail in parts of Birbhum, Bankura, Dinajpur and Malda where the number of persons employed on test-relief works is reported to be 870, 408, 1,183 and 2,500 respectively. The average price of common rice for the province has risen by about 0·45 per cent. as compared with that of the previous week.

RESOLUTION ON THE REPORT ON THE POLICE ADMINISTRATION IN THE TOWN OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1927.

GOVERNMENT OF BENGAL.

Police Department.

CALCUTTA, THE 30TH JUNE 1928.

RESOLUTION—No. 3316 Pl.

READ—

The Report on the Police Administration in the town of Calcutta and its suburbs for the year 1927.

The office of Commissioner of Police was held by Sir Charles Tegart, KT., C.I.E., M.V.O., throughout the year.

2. **Strength.**—The sanctioned strength at the end of 1927 was 391 officers and 5,230 men. There were 22 vacancies in the officers' ranks and 271 in the men's. The latter figure is slightly less than that for 1926, although there was an increase of 101 in the sanctioned strength of the rank. The number of enlistments, however, was about 300 less than in the previous year, and the rejection of 408 new recruits after the first examination by the Police Surgeon and of 93 before the completion of six months' training indicates that the conditions of service are not sufficiently attractive for the type of men required for service in Calcutta. The Governor in Council has, therefore, decided to ask the Legislative Council for a grant which will make it possible to increase the scale of pay of a constable from Rs. 18 to Rs. 22 per month to Rs. 22 to Rs. 26 per month with effect from September of the current year. It is hoped that one result of such an increase will be a decrease in the wastage among the lower ranks with a consequent saving of expenditure. It is also hoped that men will remain longer in the force than at present when the proportion of constables of over ten years' service is only about 20 per cent. The Governor in Council is pleased to read that the state of health of the force was so good, the average daily percentage of sick being only 2·6. His Excellency in Council has read with pleasure the tribute which the Commissioner of Police has paid to Major De, who recently held the appointment of Police Surgeon, and congratulates him on the excellent work which he has done.

3. **Housing.**—The housing of the police has a very important bearing on their health, and the Governor in Council is pleased to learn that the town building scheme has made satisfactory progress and that it will soon be possible to vacate the last of the unhealthy buildings in which for want of Government buildings it was so long necessary to house the town police. Proposals regarding new buildings for the suburban police are now under the consideration of Government, and it is hoped that a comprehensive programme will shortly be formulated.

4. **Crime statistics.**—A decrease of more than 33 per cent. in the number of true cases of robbery as compared with 1926 bears testimony to the efficacy of the Goondas Act, since the introduction of which in 1923 the number of such true cases has fallen from 122 to 19. The number of reported burglary cases (675) was practically the same as in 1926 (673), but there was an increase of about 9 per cent. in the number of " true " cases of theft. On the other hand, there was a gratifying increase in the proportion of the value of stolen property recovered to the total value of property stolen.

5. **Political crime.**—The Governor in Council agrees with the Commissioner of Police that although there were no overt acts of terrorism during the year, this was largely due to the vigilance of the police and their operations, though revolutionary methods of political agitation cannot yet be considered to have been abandoned.

The exploitation of labour grievances by outsiders working under the guidance of foreign organisations for political rather than economic objects is a feature which demands very close attention.

6. **Communal tension.**—Fortunately, there was no inter-communal rioting during the year, but there is no doubt that on several critical occasions a breach of the peace was prevented only by the elaborate precautions which were taken, and the Governor in Council trusts that the public of Calcutta will appreciate the excellence of the dispositions made by the Commissioner of Police and the loyal discharge of their duty by officers and men who had on several occasions to remain at their post for many hours without rest.

7. **Traffic.**—The Governor in Council has read with great interest that portion of the report which deals with traffic in Calcutta. The increase in the number of motor vehicles is striking, and the popularity of the motor bus appears to have become firmly established. With the development of motor traffic, the difficulty of control has increased in Calcutta as in other large towns, and problems in Calcutta and other cities in India are further complicated by the amount of slow-moving traffic. The Governor in Council trusts that in his next report the Commissioner of Police will comment on the working of any new methods introduced on the recommendation of the traffic expert whose services were borrowed from the Metropolitan Police

8. The Governor in Council has read with pleasure the list of officers whose good work has been brought to his notice. He thanks the Commissioner and all ranks of the force for their devotion to duty and congratulates them on the excellence of their work.

ORDER.—Ordered that a copy of this resolution be forwarded to the Commissioner of Police, Calcutta, the Chief Presidency Magistrate, Calcutta, and the Commissioner of the Presidency Division, for information.

Ordered also that a copy of the resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette*.

No. D./3057-R.-II.—The Indian Civil Service Family Pension Rules and the Indian Civil Service (non-European members) Family Pension Rules with amendments up to date are published below for general information. A reprint of these rules in pamphlet form will be issued shortly.

I.

The Indian Civil Service Family Pension Rules.

1.—(1) These Rules may be called the Indian Civil Service Family Pension Rules.

(2) They apply to all covenanted members of the Indian Civil Service who are of European race, or who, being of non-European race,

(*a*) were appointed to the Service between the 1st August 1914 and the 4th January 1923, or

(*b*) were appointed in the years 1912 and 1913 and have been admitted as subscribers.

(3) If any question arises as to whether these Rules apply or do not apply to any individual member of the Indian Civil Service, the question shall be decided by the Secretary of State in Council and his decision shall be final.

2. Every person to whom these Rules apply (hereinafter referred to as a "subscriber") shall make, with effect from the date of his arrival in India to join his first appointment, the contributions and payments* hereinafter prescribed.

3. The sums so contributed or paid shall be credited by the Secretary of State in Council to the revenues of India, and the pensions or other benefits payable under these Rules shall be debited as a charge upon those revenues.

4. The pensions and other benefits payable under these Rules shall be divided into two portions, the one met from the contributions of subscribers and the other met from public funds.

5. A *pro formâ* account shall be maintained by the Secretary of State in Council of all contributions and payments received and of all disbursements made therefrom, together with an account of interest accruing on the balance calculated at such rates† as may from time to time be fixed by the Secretary of State in Council with reference to the market rates of the day.

6.—(1) The Secretary of State in Council shall from time to time, at such periods as he may determine, place the *pro formâ* accounts referred to in Rule 5, together with statistics of the ages, births, marriages and deaths of the subscribers and of their dependants, before such Actuary or Actuaries as he may select, with instructions to examine them and report thereon.

(2) The Report of the Actuary or Actuaries shall be published in such manner as the Secretary of State in Council may direct.

(3) The Secretary of State in Council shall, after consideration of the Actuary's Report, make by amendment of these Rules such alterations in the rates of contributions, payments, and benefits as he may think necessary. Every such alteration shall, in the absence of provision in the Rules to the contrary, take effect from the first day of the month following the date of publication of the amendment in the *Gazette of India*:

Provided that no reduction shall be made in respect of the benefits payable to any person already in receipt thereof, other than the withdrawal or reduction of any increase granted temporarily.

(4) The cost of the actuarial examination and Report aforesaid, together with all other expenses incurred in connection with the administration of the Rules, shall be borne by the Secretary of State in Council.

7. With effect from the 1st August 1925, the monthly contributions payable by a subscriber shall be those shown in the First Schedule to these Rules, and shall be deducted from his pay at the time of issue. If at any time a subscriber is not in receipt of pay he shall not thereby be relieved of the obligation to pay the contributions due from him.‡

---

* These contributions and payments are fixed in sterling, and when recovered or paid in India are convertible into rupees at the current rate of exchange.

† The rate of interest fixed for the present is 5½ per cent per annum up to 31st October 1928; thereafter, 5 per cent. per annum until further notice

‡ If a subscriber is not in receipt of pay from a Government in India, he should arrange to pay the contributions due from him, either by cash or by cheque, to the Accountant-General, India Office, or to the Accountant-General, Central Revenues, New Delhi.

8. Subject to the provisions of Rule 23 and Rule 25, contributions payable under Rule 7 shall cease when the subscriber retires from the Service on a pension.

9. A subscriber who is dismissed from the Service or who resigns without being entitled to an annuity or pension shall thereupon cease to be a subscriber and his family shall cease to be entitled to any pensions under these Rules, nor shall the subscriber be entitled to any refund of contributions or other payments:

Provided that the Secretary of State in Council may at his discretion permit any subscriber who has resigned without being entitled to an annuity or pension to continue his contributions and thereby to retain for his family the benefits of these Rules, and if such permission is granted contributions shall be payable until the subscriber's 54th birthday.

10. Subject to the provisions of Rule 8, the contribution payable on behalf of a child is payable in the case of a son until his attainment of the age of 24 years or previous death, and in the case of a daughter until her marriage or previous death.

11.—(1) Subject to the provisions of Rules 13 and 23A, every subscriber in the Service shall report his marriage in the form prescribed in the Second Schedule, within one month of the date thereof, or within one month of his arrival in India if he was then married, and shall on marriage, or remarriage, or on entering the Service married pay, in addition to the monthly contributions prescribed by Rule 7, the donation specified in the Third Schedule to these Rules against the year of his age, and if the age of the subscriber exceeds that of his wife by five years or more he shall further pay the disparity fine specified in the Fourth Schedule.*

(2) Donations and disparity fines payable under this Rule may be paid either in one sum or in 12 equal monthly instalments, and if paid in instalments interest shall be levied on the unpaid portion at the rates fixed by the Secretary of State in Council under the provisions of Rule 5, but any instalment may, if the subscriber so desires, be paid in advance of the due date.

(3) Donations and disparity fines payable on marriage shall be increased by 2½ per cent. if the fact of marriage is not reported within one month from the date thereof, and by 5 per cent. if the delay exceeds six months. If the marriage is not reported within one year the subscriber may be required to produce medical evidence as to the state of his health in the form prescribed in the Fifth Schedule, and the Secretary of State in Council shall in each case decide whether, and, if so, on what terms liability for widow's pension shall be accepted.†

12.—(1) Subject to the provisions of Rule 13, every subscriber in the Service‡ shall report in the form prescribed in the Sixth Schedule, within one month of its occurrence, the birth of every child born alive in wedlock, or, if he was married and had children living at the date of his arrival in India, he shall report their names and dates of birth within one month of that date.§

(2) No payment shall be required in respect of any child who dies within 30 days of birth.

(3) If the birth of a child is not reported within one month, the subscriber shall pay a fine of 12*s.* and a further fine of 2*s.* for each succeeding month's delay. If the delay exceeds 12 months the subscriber may be required to produce medical evidence as to the state of his health in the form prescribed in the Fifth Schedule, and the Secretary of State in Council shall in each case decide whether, and, if so, on what terms, liability for orphan's pension shall be accepted.†

13. Reports shall not be accepted nor contributions or payments received in respect of any wife married during the lifetime of another wife, or of any child born of a wife married as aforesaid; and no wife married as aforesaid or child born of such a marriage shall be entitled to any benefit under these Rules.‖

14. Interest from the due date shall be charged on monthly contributions or donations or any portion thereof remaining unpaid for more than one month from such date at the rates fixed by the Secretary of State in Council under the provisions of Rule 5.

---

* The reports required by these Rules should be made.—

(1) To the Accountant-General, Central Revenues, New Delhi, when the subscriber is drawing pay in India or in a Colony to which he has gone direct from India, or

(2) To the Controller of Pension Funds, India Office, Whitehall, London, S.W.-1, when the subscriber is drawing his pay in England or in a Colony to which he has gone direct from England.

† These Clauses 11 (3) and 12 (3) are not to be read as implying an option of omitting or postponing any report that a subscriber is required to make under Rules 11 and 12. Intentional neglect to report is a breach of discipline.

‡ Retired Officers not being liable for subscription in respect of children born of marriages contracted before retirement are not subject to the provisions of Rule 12, but they should, in the interests of their children, report every birth without delay, as failure to do so will entail loss of benefit under the provision of Rule 16.

§ See note* above.

‖ This Rule is designed to apply to subscribers who may lawfully have more than one wife living at the same time.

15. Any contribution or payment due at a subscriber's death shall be deducted, without any addition for interest beyond the date of death, in four quarterly instalments from the pensions due to his dependants:

Provided that if the sum due as aforesaid is more than half the annual amount of the pensions it shall be deducted in such a number of quarterly instalments as the Secretary of State in Council may direct.

16. The widow or child of a deceased subscriber whose marriage or birth was not reported by the subscriber during his lifetime in accordance with these Rules shall be entitled to no benefit under these Rules; but the Secretary of State in Council may, on good cause being shown for the omission to report a marriage or birth, admit such a widow or child to a pension on terms to be fixed by him.

17. (1) A posthumous child of a subscriber by a marriage contracted before retirement and duly reported in accordance with Rule 11 shall be entitled to pension without payment.

(2) A posthumous child of a subscriber by a marriage contracted after retirement shall be entitled to pension on payment of the donation prescribed in the Seventh Schedule appropriate to the age which the father would have attained, if alive, at the date of the child's birth.

(3) No child shall be entitled to benefit under this Rule whose birth is not reported* within 12 months of its occurrence.

18. Subject to the provisions of Rule 21, the pension of a widow under these Rules shall continue in full during widowhood. On re-marriage she shall retain half her pension during coverture, but if she again become a widow she shall be entitled to revert to full pension, and, should her last husband have been a subscriber, to draw in addition pension as his widow. Reduction to the half rate shall take effect from the commencement of the quarter following that in which the remarriage occurred; the full pension shall be restored from the day following that on which the pensioner again becomes a widow.

19. (1) Subject to the provisions of Rule 21, the pension of a male orphan shall be payable until he attains the age of 24, unless he was admitted to pension with effect from a date prior to the 1st April 1914, in which case it is payable until he attains the age of 21 only.

(2) Subject as aforesaid the pension of a female orphan is payable until the end of the quarter in which she marries, and shall not revive upon widowhood. On marriage a female orphan shall be granted from public funds a donation of £250.

(3) The Secretary of State in Council, or, in the case of a pension drawn in India, the Governor-General in Council, may at his discretion permit a portion of the pension of a male orphan who has reached the age of 16 years to be commuted with a view to the proceeds being applied to the pensioner's advancement in life.

(4) The pension of a minor orphan shall be paid to his or her mother or other duly appointed or recognised guardian.

20. Declarations shall be furnished quarterly by pensioners as to their continued widowhood, spinsterhood or survival as the case may be.†

21. Pensions under these Rules shall be tenable during good behaviour, and if the Secretary of State in Council, or, in the case of a pension drawn in India, the Governor-General in Council, is satisfied that the pensioner is leading an immoral life or has been guilty of gross misconduct, he may withhold further payment in whole or in part, and an order to this effect by the Secretary of State in Council or by the Governor-General in Council, as the case may be, shall be final and conclusive.

22. A pension payable under these Rules shall enure for the benefit of the pensioner only, and no transfer, assignment or other alienation thereof shall be recognised.

23. (1) A subscriber who marries after he has retired from the service on a pension may, if he so chooses, secure pension for his widow or for his children born of such marriage, or for both, on the conditions that reports* of occurrences are made within one month in the form prescribed in the Second or Sixth Schedule, as may be appropriate, and that a certificate of health in the form prescribed in the Fifth Schedule, is furnished either—

(*a*) with the Report of the marriage if he wishes to secure pension for his widow and for children resulting from the marriage, or for his widow only, or

(*b*) with the Report of the birth of the first child resulting from the marriage if he wishes to secure pension for his children only.

23-A. (1) On the termination of the marriage of a subscriber by divorce or annulment he shall be liable thereafter until remarriage for subscription at the unmarried rate together with subscriptions for children, if any.

(2) Where the marriage has been terminated by divorce on the petition of the wife she shall be entitled after the death of her divorced husband to pension of half the amount met from the contributions of subscribers as shown in the Eighth Schedule according to the class of her husband on the date of termination of the marriage: Provided that—

(*a*) On remarriage she shall forfeit absolutely all claim to benefit under this Rule; and

(*b*) Where the divorced husband has retired on proportionate pension the Secretary of State in Council shall in each case declare the amount of the pension for which the divorced wife is eligible; but the amount so declared shall not be less than half the amount of the pension met from the contributions of subscribers to which she would have been entitled at the date of her divorce had her husband then died.

(3) Where the marriage has been terminated by divorce on the petition of the husband he shall be exempted on remarriage from payment of donation other than disparity donation, if any, but this exemption shall apply on the first subsequent remarriage only.

(4) In cases of annulment the subscriber shall be entitled to receive a lump sum the amount of which shall be fixed in each case by the Secretary of State in Council.

(5) This Rule shall not apply in the case of marriages dissolved or annulled before 16th February 1926.

(*b*) were appointed before the year 1912 and have been admitted as subscribers.

2. Subject to the provisions of Rule 3 every person to whom these Rules apply (hereinafter referred to as a subscriber) shall with effect from the date of his arrival in India be liable for contributions and payments of the amount and under the conditions prescribed by the Indian Civil Service Family Pension Rules; and his widow and orphans, if any, shall be entitled to benefits of the amount and under the conditions prescribed by those Rules.

APPENDIX.

Extract from the Premature Retirement Rules (8th November 1921).

12.—(1) A member of the Indian Civil Service who retires under these Rules may adopt, at his option, any one of the three following methods of retaining for his wife and children benefits admissible under the Indian Civil Service Family Pension Regulations, namely:—

(*a*) He may cease to make any contributions and payments under the regulations, and shall then retain only the right to a proportion of the contingent benefits under the regulations for his wife and children existing on the date of retirement, and for any children subsequently born to that wife. This proportion shall be equal to the number of his completed years' total service divided by 25, and the calculation shall be based upon the pension admissible to the widow of an officer of the class to which he belonged at the time of his retirement.

(*b*) He may continue up to his 51st birthday to make contributions under the regulations at the rates payable by him at the date of retirement, and shall then retain the right to the full contingent benefits admissible under the regulations, according to his class on the date of his retirement, for his wife existing at the date of retirement, and for any children by her, whether born before or after retirement. Under this alternative, subscriptions will be payable under the ordinary regulations for each child, whether born before or after retirement. In the event of the death of the wife, subscriptions at the bachelor rate appropriate to the subscriber's class on retirement will be payable until age 51.

(*c*) He may continue up to his 51st birthday to make contributions and payments under the regulations at the rates which would have been payable by him from time to time had he remained in the Service. In that case he shall retain the full benefits admissible under the regulations as if he had remained in the Service until death or retirement with an ordinary pension.

Provided that, in the event of the officer failing to notify within three months of the date of his retirement the method selected by him, he shall be deemed to have elected the first of the above methods.

(2) The Secretary of State in Council shall make good to the Indian Civil Service Family Pension Fund under a suitable procedure any loss which may be estimated to be thrown upon it by the operation of this rule.

Provided that a co-sharer landlord who purchases a holding of a *raiyat* at a sale in execution of a rent decree or of a certificate under this Act shall not hold the land comprised in such holding as a *raiyat* but shall hold the land as a proprietor or tenure-holder, as the case may be, and shall pay to his co-sharers a fair and equitable sum for the use and occupation of the same. 26J. In cases where sections 26C and 26E apply—

Landlord's transfer fee with compensation in certain cases of transfer

STATEMENT OF OBJECTS AND REASONS.

A Bill to revise the Bengal Tenancy Act of 1885 was introduced in the Council on the 3rd December 1925. The necessity for amending the Act was explained in the "Statement of Objects and Reasons" (annexure to the present Statement) which prefaced that Bill. The Council referred the Bill to a Select Committee consisting of 18 members, of whom 4 were officials. This Committee after several sittings revised the Bill introduced in 1925 in many material respects, but the members were far from unanimous in their views, and 13 of them signed notes of dissent. Government were, therefore, unable to accept the Bill as revised by the Select Committee without further examination, the main reasons being—

(*a*) that it made no provision for any substantial rights for under-raiyats,

(*b*) that it declared that no cultivator who did not pay cash rent could be a tenant, and

(*c*) that it repealed the present provision by which a co-sharer landlord cannot hold lands in his own estate or tenure as a raiyat.

Government have since taken further advice and prepared the present Bill.

2. In this Bill the view taken by the Select Committee that the full rights of an occupancy raiyat should not be given to all under-raiyats has been recognised. Under-raiyats who have already got the right of occupancy by custom will, however, acquire occupancy rights now by Statute, and the incidents of such right have been defined, namely, that these under-raiyats will have, as against their immediate landlords, all the rights of occupancy raiyats except the new right of transferability, but they will not be protected interests under clause (*d*) of section 160.

3. The remaining under-raiyats have been divided into two classes—

(*1*) those who have held their land, including a homestead, for 20 years continuously, also those who have been admitted in a document by their landlord to have a permanent and heritable right;

(*2*) all others.

Both classes will be liable to ejectment on the grounds on which an occupancy raiyat is liable to ejectment under the present Act, *i.e.*, if they use the land in a way which makes it unfit for the purposes of the tenancy or have broken a contract which is consistent with the Act and also on one additional ground for arrears of rent.

The second class can also be ejected on the ground that their lease has expired on six months' notice. This, however, can only be done if the landlord requires the land for his own cultivation, and it has been explained in a proviso that for the purposes of ejectment of an under-raiyat cultivation by *bargadars* shall not count as cultivation by the landlord himself or by hired servants.

Provision has been made for restitution of possession to the ejected under-raiyat in certain cases.

4. All under-raiyats will have the right to abandon their holdings under the same conditions and with the same safeguards that section 87 now provides in the case of occupancy rights. They will also have the right to deposit their landlords' rent and prevent or set aside a sale by the court for the latter's arrears. The two superior classes of under-raiyats will also have a right to claim recognition when their immediate landlord abandons his holding, on payment of a *salami*. Similarly in cases of surrender the under-raiyat is protected. Under section 86 no surrender will be valid unless made with the previous consent of the under-raiyat.

5. The provisions regarding surrender in section 86 have been made applicable to under-raiyats with occupancy rights. They have not, however, been extended to other under-raiyats.

6. The initial rent of the under-raiyat is left to contract between the parties, but limits have been put on subsequent enhancements, viz.:—(*a*) if made by contract, not exceeding 4 annas in the rupee and (*b*) if by court, not so as to increase the rent to more than $\frac{1}{3}$rd of the average gross produce during the previous 10 years. Rent once enhanced cannot be enhanced again within 15 years.

7. As regards produce-paying cultivators, it has been considered reasonable to recognise *dhankararidars* or cultivators who pay a fixed quantity of the produce as raiyats or under-raiyats, as the case may be. *Bargadars* or *adhiars* who have been admitted in a document by their landlord to be tenants or have been held by a civil court to be tenants will be recognised similarly as raiyats or under-raiyats, but other *bargadars* or *adhiars* have been excluded from the definition of tenant. This new provision will apply with retrospective effect even to those cultivators of this class who have been recorded in a record-of-rights as raiyats or under-raiyats, unless they come under the category described above. The provisions in the present Act regarding commutation of produce rent have been deleted in accordance with the view of the Select Committee to abolish commutation.

8. In view of the provisions now made for the improvement of the rights of under-raiyats, the Select Committee's view that a raiyati interest purchased by a co-sharer landlord should not merge, but that such landlord may hold the raiyati interest in his own estate or tenancy as a raiyat,—has been accepted. Several other changes which are more or less of a minor nature have been made in a number of sections. The reasons for these changes have been explained in the notes on clauses.

ANNEXURE.

STATEMENT OF OBJECTS AND REASONS FOR THE BILL OF 1925.

Since the Bengal Tenancy Act was passed in 1885, there have been several amending Acts. Important changes were made for Western Bengal by the Bengal Tenancy (Amendment) Act, 1907, and for Eastern Bengal by the Eastern Bengal and Assam Tenancy (Amendment) Act, 1908, but since then the amendments have been of a minor kind. During the last twenty years the experience gained from litigation and from the preparation of records-of rights for areas covering two-thirds of Bengal has brought to light defects in the Act which require remedy, and has revealed changes in agrarian conditions which demand a substantial modification in the law.

2. In a resolution passed on the 7th July, 1921, the Bengal Legislative Council recommended the appointment of a Committee to consider and report what amendments were needed in the Bengal Tenancy Act. The Committee was appointed by the Government of Bengal in August, 1921, and presented their report, together with a preliminary draft of a Bill to amend the Act, on the 19th December, 1922. The circulation of this draft for opinion produced many criticisms, and modifications have been made ; but the present Bill is based substantially on the draft prepared by the Committee.

3. The widespread practice of subdivision and subinfeudation of rights in land has necessitated the revision of the fundamental provision of the Act, by, which the occupancy tenant right is limited to one person in the chain of those interested in the land. A common result of this limitation has been that the cultivating tenant, for whom this occupancy right was intended, has become a tenant-at-will under the holder of the occupancy right. It is proposed in the Bill to meet this difficulty by giving to persons holding land under the tenant who enjoys the legal status of raiyat a right of occupancy as against his immediate landlord. The Bill therefore provides for giving an occupancy right to the under raiyat, but such a right will not be a protected interest under section 160.

4. The difficulties in the existing law regarding the transfer of occupancy holdings were brought to the notice of Government by the High Court, which represented the desirability of legislation to make it clear whether, in the absence of a usage entitling a raiyat to sell his holding without the landlord's consent, such a sale is void *ab initio* or merely voidable at the will of the landlord. It is proposed to recognise the prevalent practice and to give to the occupancy tenant a right of transfer. At the same time it is desirable to secure to the landlord the premium which in most parts of Bengal he now levies as the price of his recognition of the transferee as his tenant, and also to protect him against undesirable tenants. The Bill therefore includes provisions for the payment of a transfer fee to the landlord, and also gives him the right to have the holding transferred to himself on payment to the transferee of the consideration money and 10 per cent. compensation. The transfer fee will not be payable in the case of a transfer by bequest in favour of a natural heir, nor will the landlord have the right to purchase the holding if the transfer is of this kind or is made to a co-sharer in the tenancy.

5. Under the existing law, the right of tenants in trees is left to custom, but the uncertainty of custom has led to much difficulty and litigation. The Bill gives to the occupancy raiyat and occupancy under-raiyat complete rights in trees on his land, except that in the case of valuable trees a fee of one-fourth of the value is to be paid to the landlord when the tree is felled or disposed of.

6. It is proposed to replace section 40 of the Act with a new section dealing with the commutation of produce-rents into money-rents, because the present section is not suitable to conditions in the province as now constituted. The right to apply for commutation will be given to the under-raiyat having occupancy rights as well as to the raiyat. It is proposed to except from commutation cases in which the landlord is dependent upon the produce-rent for his subsistence and other cases of a similar nature, and to provide in certain cases for the payment to the landlord of a premium as compensation for commutation.

7. The difficulties in the application of the law arising from the existence of several co-sharers, concerned in one tenancy either as landlords or tenants, have necessitated a simplification of procedure. The Bill, therefore, on the one hand provides for the appointment of a common agent to act on behalf of joint or co-sharer landlords ; and on the other makes co-sharer tenants jointly and severally liable for the rent of the holding, and provides that a decree for arrears of rent obtained against co-tenants who in accordance with the definition in the Bill, represent the entire body of the co-sharers, shall be valid against all the co-tenants. Further, a co-sharer landlord is allowed to bring a suit for the arrears of rent due to him alone, making the other landlords parties as defendants and obtain a rent-decree valid against the entire tenancy.

8. When section 158A was introduced into the Bengal Tenancy Act in 1907, it was expected that a general system of maintenance of the record-of-rights would be

introduced by Government, and it was intended that the privilege of the certificate procedure for the realization of rents should be granted only if the records were maintained by Government. As such a system has not been generally introduced, it is proposed to remove this compulsory condition, but in its place to impose on Government the obligation of considering how the landlord himself maintains his record. It is also proposed to make recoverable by the same procedure the fees payable to landlords on the transfer of tenures and holdings and the dues mentioned in section 193 of the Act.

9. Of the other changes proposed in the Bill, the more important are the simplification of the procedure in connection with the transfer of permanent tenures, the repeal of Chapter XII of the Act, some simplification of judicial procedure and the reconciliation of differences between the Bengal Tenancy (Amendment) Act, 1907, and the Eastern Bengal and Assam Tenancy (Amendment) Act, 1908. These and other minor and consequential changes are explained in detail in the Notes on Clauses.

NOTES ON CLAUSES.

Clause 2.—In the proposed sub-section (*3*) of section 1, references to areas outside the Province have been deleted, and the areas to which the Act does not apply have been definitely mentioned, thus avoiding reference to the Scheduled Districts Act.

In clause (*ii*) of the proposed sub-section reference is made to the areas which have been added or may be added to Calcutta under the present Calcutta Municipal Act, 1923; but it has been made clear that the Bengal Tenancy Act does not cease to apply to such areas or to the areas of other municipalities unless a special notification has been made to that effect; and in accordance with the recommendation of the Select Committee on the 1925 Bill a proviso has been added requiring previous publication of the intention of Government and a resolution of the Bengal Legislative Council before the issue of any such notification.

Clause 3. Sub-section (*2*) of section 2, which refers to Orissa, has been omitted.

Clause (*4*)—*Sub-clause* (*a*).—The Select Committee's view that no class of produce-paying cultivators should be treated as tenants under clause (*3*) of section 3 has been followed, but exception has been made in favour of *dhankararidars*, *i.e.*, persons paying a fixed quantity of produce, and also persons already recognized as tenants by their landlords or by the Civil Court.

Sub-clause (*b*).—This is consequential to the repeal of Chapter XII regarding distraint (*vide* clause 88).

Sub-clause (*c*).—The definition of "holding" in clause (*9*), of section 3 has been extended to under-raiyats.

Following the Select Committee's proposal the definition has been further amended so as to include an undivided share of a parcel of land, provided it formed the subject of a separate tenancy.

Sub-clause (*d*).—Of the alternative definitions of "village" in clause (*10*) of section 3 in the Western Bengal and Eastern Bengal Acts, the Eastern Bengal form has been adopted with necessary modifications.

Sub-clause (*e*).—This sub-clause defines the "agricultural year" in clause (*11*) of section 3 as the Bengali year. This year is in force throughout Bengal, except in a part of Midnapore and in Chittagong. It is desirable to make the year uniform throughout Bengal for the purposes of the Act.

It is proposed in clause 131 to rearrange the definitions in section 3 in alphabetical order.

Sub-clause (*h*).—The expression "complete usufructuary mortgage" appears in several places in the Bill. It is therefore convenient to explain the expression once for all in a definition, and this has been done in the proposed clause (*19*) in section 3.

The expression "cost of transmission" also appears in several places with reference to landlords' fees, etc., and it has also been defined in the new clause (*20*) in section 3.

Clause 5.—No change has been made in section 4 or section 5, except that the words "servants or labourers" in sub-section (*2*) of section 5 have been substituted for the words "hired servants" as suggested by the Select Committee.

Clause 6.—The amendments of section 8 and section 36 give Courts greater powers of discretion as regards progressive enhancements. The total enhancement may be distributed over ten instead of five years in any way the Court considers fair. It is definitely stated in section 36 that for purposes of future enhancement the full rent shall be deemed to have come into force from the date of the decree.

Clause 7.—This addition has been made to section 9 in order to remove any misapprehension by the Courts as to the application of the section when there have been gradual enhancements.

Clause 8—*Sub-clause* (*1*) (*a*).—The system of paying landlords' fees in the case of permanent tenures has not been changed materially. It is obviously unnecessary for the purchaser to pay a fee if he himself is the sole landlord, hence the amendment (*a*) in sub-section (*2*) of section 12.

Sub-clause (*2*).—The new sub-section (*4*) in section 12 allows Government to prescribe whether the fees should be paid in cash or in stamps.

Clause 9.—Provision is made in sections 12 (*3*), 13 (*2*) and 15 for the service of the notice on, and the payment of the fee to, the common agent, who will be appointed under the proposed section 99A, *vide* clause 61.

Clause 10.—The changes are verbal in the interests of consistency.

Clause 11.—The proposed proviso to section 15 allows the person succeeding to settle with the landlord direct instead of through the Collector.

Clause 12.—This clause amending section 16 is consequential on the amendments made by clauses 13 and 88.

Clause 13.—The new section 16A in this clause makes it clear that the transferee of a permanent tenure includes his successors in interest.

Clause 14—*Sub-clause* (*2*).—New clause (*b*) (*i*) in the proposed sub-section (*1*) of section 18. The Select Committee's view that a raiyat at fixed rate shall be liable to ejectment like an occupancy raiyat, on the ground that he has used the land in a manner which renders it unfit for the purpose of the tenancy, has been accepted.

Sub-clauses (2) and (3).—Section 18 has been amended so as to make it clear that a raiyat holding at a rent or rate of rent fixed in perpetuity can acquire the status of a settled raiyat of a village and that certain sections of the Act shall not apply to such a raiyat.

Clauses 15, 16 and 17.—These clauses reconcile the verbal differences in sections 18A and 18B between the Western Bengal Amendment Act of 1907 and the Eastern Bengal Amedment Act of 1908.

Clause 18.—The period after which unclaimed landlords' fees are forfeited to Government has been raised in section 18C from three years to five years.

Clause 19.—It is proposed to extend the Western Bengal section 19 to Eastern Bengal.

A formal amendment is made in the reference to the Calcutta Municipal Act in sub-section (2) of section 19.

Clause 20.—The existing section 22 prevents any landlord from holding lands in his own estate or tenure as a raiyat. This was considered unfair in the case of co-sharer landlords. So long as under-raiyats have substantial rights there is no reason why co-sharer landlords should not hold as raiyats holdings of which they have come into possession otherwise than by exercise of their own legal powers to realise rents in arrear. Hence the existing sub-section (2) of section 22 has been omitted and a proviso to the new sub-section (2) of section 22 takes its place. The new sub-section (2) in section 22 emphasises the change in the law in favour of co-sharer landlords. The change in the wording of sub-section (3) of section 22 makes the original intention of the Act clearer. An *ijardar* cannot claim to have acquired either occupancy or non-occupancy rights.

Clauses 21 and 22—The rights of raiyats regarding trees are not clear and they are practically left to custom which is variable in different parts of the Province. The reference to "customary rights" in trees in section 23 has been deleted and a new section 23A has been inserted definitely specifying the trees in respect of which the landlord shall have sole rights, provided they were growing on the land before 1928. All rights in respect of all other trees rest in the raiyat. The Select Committee's specification of the trees has been accepted and a sentence has been added to provide for the necessary license for the landlord to enter upon the land for the purpose of exercising his rights.

Clause 23.—New sections 26A to 26J. These sections deal with the question of the transferability of occupancy holdings. The present law leaves the matter to local custom (*vide* section 183, *Illustration*), but as a matter of fact occupancy rights are freely transferred without reference to and without the knowledge of the landlord. In most cases, the transferee secures recognition by going to the landlord either immediately after the sale or at a later period and paying him a *salami* and the arrears of rent due from the old tenant. The amount of *salami* is not fixed, and in some cases the landlord is unwilling for some reason or other to accept the transferee as his tenant, and the result is litigation on which no positive law can be applied. The remedy proposed is to recognise the existing wide spread practice of transfer and to admit transferability of occupancy holdings subject to payment of a fixed rate of *salami* (called landlord's transfer fee) at the time of the transfer and to other safeguards necessary to protect the interests of the landlord and to secure the general welfare of the agricultural community. The *salami* or landlord's transfer fee has been fixed at 25 per cent. of the consideration money or six times the rent, whichever is greater. This amount must be paid to the Registering Officer at the time of registration of the document together with the necessary fees for service of notice on the landlord and the prescribed cost of transmission of the money to him. The transfer fee will be sent by the Registering Officer to the Collector who will cause the notices to be served on the landlord and the money to be paid to them or to their common agent, if any. The transfer would be complete as soon as registration of the deed has been done, but the landlord may within two months of the service of notice upon him apply to the court for purchasing the holding for himself by paying the party who had purchased from the old tenant the full amount paid by him *plus* 10 per cent. as compensation.

Analogous provisions, with necessary modifications, have been made to meet cases of transfer by will or bequest or sale in execution of a decree.

The transfer fee will not be payable in the case of a bequest in favour of natural heirs, *e.g.*, husband, wife or consanguine within three degrees.

No question of pre-emption arises in the case of exchange and the transfer fee in such case will be half.

In the case of rent-free holdings, the fee will be two rupees as in the case of rent-free tenures.

Clause 24.—It has been considered reasonable that the landlord should be entitled to some enhancement of rent under clause (*c*) of section 30 when he bears a portion of the cost of an improvement.

Clause 25.—The remarks in regard to clause 6 are applicable to this clause.

Clause 26.—This amendment of section 37 follows from the repeal of section 40 abolishing the commutation of produce-rent (*vide* clause 28).

Clause 27.—It is reasonable that where a raiyat has had his rent settled when certain arrangements in respect of irrigation or maintenance of embankments were in force he should receive a reduction of his rent so long as the landlord fails to carry out his

obligations in this respect. The Select Committee suggested that it must also appear that the soil of the holding has as a result of such failure deteriorated. Sub-section (*1*) of section 38 has been amended accordingly.

Clauses 28 and 29.—Sections 40 and 40A have been repealed in accordance with the recommendation of the Select Committee that in the conditions prevailing in Bengal commutation of produce rent should be abolished.

Clause 30.—It is reasonable that a non-occupancy raiyat should be liable to ejectment on the expiry of his lease when he has been admitted to occupation under a written lease, whether the lease has been registered or not, and that he should be given six months' notice to quit when holding otherwise than under a written lease. It is proposed to amend clause (*c*) of section 44 and to add a new clause (*cc*) accordingly.

Clause 31.—The amendments of section 46 are merely verbal.

Clause 32.—Sections 48 and 49 have been recast as sections 48, 48A to 48H and 49 on the basis of the suggestion made by Mr. Chunder in his note of dissent attached to the Report of the Select Committee.

The proposed section 48G follows the Select Committee's recommendation in providing that all under-raiyats who have already got occupancy rights by custom shall now have such rights by statute. It has also been made clear which of the incidents of the holding of an occupancy raiyat would apply to such an under-raiyat.

Excepting as already stated, occupancy rights have not been recognised for under-raiyats, but it has been definitely provided in sections 48C and 48E that the only grounds on which an under-raiyat may be ejected shall be—

(*a*) that he has failed to pay an arrear of rent,

(*b*) that he has rendered the land unfit for the purposes of the tenancy,

(*c*) that the term of his written lease has expired, or

(*d*) when there is no written lease, by six months' notice.

The last two grounds (*c*) and (*d*) will not, however, apply if the under-raiyat has been in possession of the holding for twenty continuous years with a homestead thereon, or if a permanent and heritable right has been admitted by his landlord in a document. The last two grounds [viz. (*c*) and (*d*)] will not also apply unless the landlord requires the land for his homestead or for cultivation by himself.

The initial rent of an under-raiyat has been left to agreement between the parties (section 48). Subsequent enhancements may be made either by contract or by the court. When by *contract*, the rent may be increased up to 25 *per centum* above the existing rent but not more frequently than at intervals of 15 years (section 48B); and when *by the court*, the increase may be up to the value of one-third of the average produce of the preceding ten years (section 48D).

The under-raiyat's holding will be heritable, but it will not be transferable except with the consent of the landlord (section 48F). As regards sub-leases, when a *salami* is stipulated, a fee equal to one-fourth of the *salami* is to be payable to the immediate landlord of the raiyat (section 48H).

An under-raiyat may enter into a complete usufructuary mortgage in the same manner as an occupancy raiyat (section 49). The intention is that section 26G (*4*) will govern under-raiyats also, and forbid any other form of usufructuary mortgage.

Clause 33.—In view of the special conditions of the raiyats in the colonisation areas in the Sundarbans, it is considered necessary that the provisions of section 49A regarding restrictions on alienation of land should be applicable to them, although the persons concerned may not strictly be aboriginals, and a new sub-section (*5*) has been added to section 49A for this purpose.

Clause 34.—The *Explanation* to section 49E (*2*) has been omitted and a definition of "complete usufructuary mortgage" has been proposed in sub clause (*h*) of clause 4.

Clause 35.—In order to meet certain doubts which have arisen, it is proposed to amplify sub-section (*6*) of section 52, in order to make it clear that an entry of an area in a document may be presumed to have been ascertained on measurement if it is shown that a practice of settlement after measurement was in use at or about the date on which such document was drawn up.

Clause 36.—The amendment of section 54 is intended to remove the practical difficulties which at present discourage the tenants from paying their rents by money order and cause the landlords to dislike this system of payment. It has been made clear that a tender made at the landlord's village office should be sufficient, and that a postal receipt of money-order would be presumed by the court as tender of rent by the tenant. The Select Committee's proposal to insist on a Post Office certificate of the landlord's refusal to accept a rent money-order has not been adopted; because it would not be practicable to obtain such a certificate, and even if it could be obtained it would not be evidence unless formally proved.

The main reason which makes the landlords reluctant to accept rents tendered by postal money-order, and thus discourages the tenants from making use of this method, has been removed by providing in sub-section (*4*) that the landlord's acceptance of such rent shall not be treated as admission or evidence as regards the particulars of the tenancy set forth in the money-order or operate as a waiver of his rights under the clauses relating to the transferability of occupancy holdings.

Clauses 37 and 38.—The amendments of sections 56 and 57 are consequential to the changes made in Schedule II in clause 132.

Clause 39.—A sub-section (*g*) has been added to section 58 to make it clear what will not be a reasonable excuse on the part of the landlord for not granting a receipt or statement of account or for not retaining a counterfoil fully filled up.

Clause 40.—Slight modifications have been made in section 61, in order to remove certain difficulties raised by the Courts and to make the wording more consistent with other sections.

Clauses 41 and 42.—Changes have been made in sections 63 and 64 in order to make it compulsory on the Courts in certain cases to send rents deposited under clauses (*a*) and (*b*) of section 61 by money-order to the landlord. The drafting of section 63 has been amended.

Clause 43.—In order to prevent landlords from harassing tenants by means of suits for rent which the latter have already tendered by money-order or deposited in the Civil Court, it is proposed by the new section 64A to preclude the landlord from recovering in such suits damages, interest or costs, and also to make him liable for damages.

Clause 44—Sub-clause (*a*).—The change here made in sub-section (*1*) of section 66 is consequential on the proposal to adopt the Bengali year for the whole province, *vide* clause 4 (*e*).

Sub-clause (*b*).—The period in sub-section (*2*) has been extended to thirty days.

Clause 45.—It is reasonable, owing to the circumstances in which damages are awarded, that such damages should not be less than the interest which would otherwise be given under section 67. The proposed second proviso to sub-section (*1*) of section 68 gives effect to this proposal. The Select Committee's draft has been adopted.

Clause 47.—Following the Select Committee's proposal section 73 has not been repealed, but a proviso has been added that the transferor shall not be liable for arrears of rent if the transferee has agreed to pay the same and the fact has been mentioned in the instrument of transfer.

Clause 48.—This change in sub-section (*3*) of section 74 is consequential on the proposed change in section 179 (clause 115) which will make a contract for an *abwab* illegal in the case of permanent *mukarrari* tenures as well, but it is not proposed to interfere with existing contracts regarding such tenures.

Clause 49.—The Select Committee's proposal to include "provision of drinking water for the tenant" amongst improvements and to make it clear that a dwelling-house includes a masonry building has been accepted. Section 76 has been amended accordingly.

Clause 50.—The amendments in section 77 embody the Select Committee's proposal that tenants of all descriptions including under-raiyats should have the preferential right to effect improvements.

Clause 51.—All the Committees have agreed that the rights given to raiyats in sections 78, 82, 83 and 87 should be extended to under-raiyats of all classes Similar changes have not been made in section 86, because the Select Committee did not agree that under-raiyats, except under-raiyats with occupancy rights (*vide* section 48) should have the right of surrender.

Clause 52.—Section 79 has been repealed as proposed by the Select Committee. In view of the amendment of section 77, this section becomes unnecessary.

Clause 53, sub-clause (*a*).—The insertion of the words "wholly or partly" in sub-section (*1*) of section 80 follows from the amendment of section 30 in clause 24.

Clause 54.—Section 85 regarding sub-letting by raiyats has been repealed, the position of under-raiyats being defined in the amendments of sections 48 and 49 (*vide* clause 32).

Clause 55.—Sub-section (*6*) of section 86 has been amended so as to protect the under-raiyat by rendering it obligatory to have his consent before his landlord, *viz.*, the raiyat, could surrender his holding.

Clause 56.—The new section 86A as proposed in the Bill of 1925 has been adhered to with some slight drafting changes. The object of the changes is to do away with difficulties as regards demarcation and consequent litigation or breaches of the peace when lands form and reform in a river. If a tenant has definitely taken abatement of rent for diluviated lands it is reasonable that he should lose all rights in those lands provided they do not accrete to any lands of which he is in occupation.

Clause 57.—The Select Committee omitted the new section 87A in the Bill of 1925, which was devised to give protection to existing occupancy under-raiyats in the event of the raiyat surrendering or abandoning his holding. Cases of surrender have been dealt with in clause 55 amending section 86 (*6*). As regards abandonment, the Select Committee's suggestion for a sub-section (*5*) to section 87 has been accepted with some drafting changes. There is also this further change that the privilege of taking the raiyat's place under the superior landlord will apply not only to the first class of under-raiyats who had all the incidents of occupancy rights but also to the second class who have been admitted by their landlord to have a permanent right or who have been in possession of their holdings for over twenty years with a homestead thereon.

Clause 58.—The Western Bengal form of section 88 has been adopted.

Clause 59.—At present it is necessary when action is taken under section 93 to appoint a common manager for the whole of the estate or tenure concerned, though a dispute may exist in only a small portion. Under the section as amended by this clause it will be possible to appoint the common manager only for those portions of the estate or tenure which are affected by the dispute.

Provision is also made for enabling the tenants to apply for the appointment of a common manager in cases where, owing to the existence of a large number of small co-sharers in the estate or tenure, the tenants are put to inconvenience and harassment in the payment of their rent.

Conditions (*a*) and (*b*) in the present section 93 which make the appointment of a common manager contingent on inconvenience to the public and injury to private rights have been omitted in accordance with the view taken by the Select Committee.

Clause 61.—In order to simplify matters in estates owned by a number of co-sharers it was proposed that the co-sharer landlords should appoint a common agent for the purpose of receiving—

(*a*) notices of transfer,
(*b*) fees on transfer,
(*c*) rent deposited in court under section 61.

If the landlords failed to appoint, the Collector could in certain circumstances do it.

In accordance with the view of the Select Committee the provisions in the Bill of 1925 for the compulsory appointment of a common agent have been omitted.

The provision regarding maintenance of a register of common agents by the Collector has been amplified and the procedure made clear.

Clause 62.—Under the new section 100 rules regarding managers who are appointed by the Civil Courts will be framed by the High Court, and rules regarding common agents of whom a register will be kept by the Collector will be framed by the Board of Revenue.

Clause 63.—When a record-of-rights is prepared under section 101 it has been found necessary in practice to survey and deal with all lands agricultural or not. All the provisions, however, apply to such lands and it has been made clear in the new proviso to section 101 (*1*) which provisions apply and which do not apply.

Clause 64—Sub-clause (ii).—It is necessary that any rights of pasturage, forest rights and rights over fisheries and the like should be recorded in the record-of-rights prepared. This is provided in the proposed clause (*ee*) in section 102.

Sub-clause (iii).—The new proviso to clause (*j*) of section 102 is consequential on the changes made by clause 63 in section 101.

Clauses 65 and 67.—The Eastern Bengal and Assam sections 103B and 104H have been adopted, as the wording is more precise. There is no material difference between the Western Bengal and Eastern Bengal sections.

Clause 68.—The Eastern Bengal and Assam section 105 has been adopted here with the modification that it is proposed to allow four months instead of two months from the date of the certificate of the final publication for the filing of applications for the settlement of fair rents.

Clause 69.—An addition has been made to section 105A, which will enable an issue to be framed regarding the rent payable at the time of the publication of the record-of-rights.

Clause 70.—This clause provides in the proposed section 105B for the levy of court-fees when an issue is raised under section 105A, on the same scale as would have been payable if the issue had been raised in a suit under section 106.

The view in the Bill of 1925 that ordinarily it was inequitable to make the tenant pay the landlord's cost in a rent settlement case, besides having to pay enhanced rent, has been accepted and the new section 105C has been retained.

Clause 71.—The Eastern Bengal and Assam section 106 has been adopted with the modification that the time for filing suits has been extended to four months from the date of the certificate of the final publication.

Clause 72.—This clause makes certain changes which are consequential on renumbering (*vide* clause 77).

Clause 74.—A verbal change has been made in sections 108 and 108A—now section 115B—in order to make the sections more explicit.

Clause 75.—The proposed section 108A has been removed to the end of Chapter X and renumbered as 115B, in order to make it clear that it applies to proceedings under Part II of the Chapter. The time within which *bonâ fide* mistakes in the record may be corrected has been extended from one year to two years.

Clause 76.—A proviso has been added to section 109 so as to allow all issues raised in proceedings under sections 105, 105A and 106, which are not finally adjudicated on by the Revenue officers, being subsequently tried by the Civil Courts.

Clause 77.—It is proposed to insert a reference to section 115B (old number 108A) in section 109A, as the omission appears to be an error of drafting. As section 109A does not apply only to cases where a settlement of land revenue has not been made, it is

proposed to remove it to the end of Chapter X and renumber it as section 115C. No appeal, however, is to lie to the Special Judge in proceedings for the settlement of land revenue, that is to say, under Part II of Chapter X.

Clause 78.—The Eastern Bengal and Assam section 109B has been adopted.

Clause 79.—It is proposed to make section 109C, which is in force in Western Bengal only, applicable to Eastern Bengal also, with the modification that it will no longer be necessary for an officer to be specially empowered by the Local Government for the purpose of this section.

Clause 80.—This clause brings together the various sections in Chapter X relating to notes of decisions in the finally published record-of-rights and co-ordinates the Western Bengal and Eastern Bengal law on the subject.

Clause 81.—The change made here corrects an error of drafting in section 110.

Clause 82.—This amendment in clause (*b*) of section 111 is consequential to the raising of the period for cases under section 106 to four months (*vide* clause 71).

Clause 83.—The Eastern Bengal and Assam section 111B is preferred, because Revenue officers should clearly be precluded from trying issues under section 105A, no less than issues under section 106, which are *sub judice* in the Civil Court.

The substitution of four months for three months is consequential on the amendment of section 106.

Clause 84.—Of the alternative forms of the Western Bengal and Eastern Bengal section 112, the Eastern Bengal form has been adopted. Experience, however, shows that the provisions of this section can be defeated by the exaction of excessive rents pending the currency of the proceedings, It is therefore proposed that such rents shall not be recoverable for the period of the proceedings.

Clause 85.—The Eastern Bengal and Assam section 115A has been adopted.

Clause 86.—It was resolved at a conference of District Boards, held in 1919, that tenants of any roadside lands should not be allowed to acquire occupancy rights in them. This clause therefore provides for the extension of section 116 to such and similar lands. The reference to Bihar has been omitted.

Clause 87.—Corrects an error in spelling in section 120.

Clause 88.—It is proposed to repeal the whole of Chapter XII on distraint, as it is not necessary in the province as at present constituted, where it is rarely used, and then probably only as a means of oppression.

Clause 89.—It is proposed to amend section 144, so as to enable landlords, subject to necessary safeguards, to bring one suit against the same tenant on account of the arrears of rent of more than one tenancy. It is also proposed to make it clear that a rent suit can only be brought in a court within the jurisdiction of which the lands of the tenure or holding are situate.

Sub-clause (*b*) is intended to give additional facilities to landlords to recover rent from tenants.

Clause 90.—The necessity for a fresh petition or affidavit for the purpose of verification of pleadings has been done away with as proposed by the Select Committee. A proviso has accordingly been added to section 145.

Clause 91.—The principles of the new sections 146A and 146B in the Bill of 1925 regarding joint and several liability of co-sharer tenants for rent were accepted by the Select Committee. These make a decree in a rent-suit binding on co-tenants under certain circumstances, although they were not made parties. The Select Committee considered that actual residence in the village of such co-tenants need not be a necessary condition but it should suffice if they have a homestead in it. Sub-section (*3*) (*i*) of the new section 146A has been drafted accordingly.

The Select Committee also thought that the procedure for registering a co-sharer tenant's name through the Collector was likely to lead to complications. Sub-section (*4*) in the proposed section 146A has accordingly been omitted ; but sub-section (*3*) (*iii*) of that section has been revised so as to provide for cases in which the purchaser of or successor to a co-sharer tenant's interest has given notice under sections 12 (*3*), 26E, 26F or 15, as the case may be.

The proviso to the new section 146B (*1*) enables a co-sharer tenant who has not been made a party and who may come to know of the case at a late stage to pay into the court the full amount of claim and be entitled to the benefits of section 171.

Clause 92.—The proviso to section 147 is consequential to the amendment of section 148A regarding rent-suits by co-sharer landlords and consolidation of such suits.

Clause 93.—Of the two alternative Eastern Bengal and Western Bengal forms of section 147A, it is proposed to retain the Eastern Bengal form with, however, the addition of sub-section (*4*) from the Western Bengal section, so as to safeguard the rights of third parties. The drafting has been amended so as to bring it into conformity with the Code of Civil Procedure.

Clause 94.—The objects of the various changes proposed by this clause in section 148 are to co-ordinate the Eastern Bengal and Western Bengal forms of the law and to cheapen the procedure in rent-suits. The principal changes may be summarized as follows :—

(*1*) New clause (*b 1*). In areas where a record-of-rights has been prepared it is sufficient for the identification of the lands in suit, if the *khatian* number of the tenancy

is given, and its area and rental: but where changes have occurred in the area, survey plots or rent since the record-of-rights these should be indicated in a statement [new clause (*b 2*)].

(*2*) Clause (*d 1*) has been inserted in accordance with the recommendations of the Select Committee. It omits the identifier in the service of process. There will be no difficulty if these processes are permitted to be served by dafadars through Union Courts, inasmuch as the dafadars personally know the local people.

(*3*) The Court may inform the natural gurdian of a minor defendant that he will be treated as the guardian, and, unless he appears and objects within 14 days, the Court may proceed with the suit on the assumption that the minor is properly represented [new clause (*d2*)].

(*4*) If the Court accepts or refuses a written statement, it must record its reasons —*vide* amendment of clause (*e*).

(*5*) In the new clause (*f1*) a simpler procedure has been provided for *ex parte* cases where the rent claimed is in accordance with the record-of-rights or a previous decree or registered lease. This has been done in accordance with the views of the Select Committee following the recommendation of the Civil Justice Committee.

(*6*) Any party who files collection papers or extracts from records-of-rights as evidence may take them back for use in other cases, with the permission of the Court, and in that case copies of the relevant entries will be made and certified by the Court without charge and kept with the record of the case [clause (*ff*)].

(*7*) It has been made clear in clauses (*f*) and (*fi*) that in *ex parte* cases statements in plaints other than those about the amount of rent due should not be used against the tenant in any subsequent suit or proceeding. It is expected that tenants knowing that they are safe in this respect will not trouble to defend rent suits in which the money is admittedly due.

Clause 95—Proposes a new section for section 148A to meet the difficulties of co-sharer landlords in realising the rents through the Court. Briefly, it is proposed that a co-sharer landlord should be allowed to bring a suit for arrears of rent due to him alone, making the other co-sharer landlords parties defendants. These co-sharer landlords would then have an opportunity of coming forward as plaintiffs, but if they do not, they will be debarred from getting any decree for arrears of rent for the period in suit.

Clause 96.—It is proposed by an amendment of section 153 to empower District Judges, Additional Judges and Subordinate Judges to exercise final jurisdiction in cases where the amount of rent claimed, including interest and damages, does not exceed Rs. 200 instead of Rs. 100 as at present, and specially to empower judicial officers below the rank of Subordinate Judges to exercise final jurisdiction in cases where the amount of rent claimed, including interest and damages, does not exceed Rs. 100 instead of Rs. 50 as at present.

Clause 97.—This clause amends section 156 so as to make the rules which apply in the case of a raiyat ejected from his holding applicable in the case of an under-raiyat similarly ejected.

Clause 99.—When section 158A was introduced into the Bengal Tenancy Act in 1907, it was expected that a general system of maintenance of the record-of-rights would be introduced by Government, and it was intended that the privilege of the certificate procedure for the realization of rents should be granted to a landlord only if the record-of-rights was maintained by Government. As the idea of general maintenance has now been abandoned, it is proposed to remove this compulsory condition, but in its place to impose on Government the obligation of considering how the landlord himself maintains his record.

Clause 100.—It is desirable that the certificate procedure shall apply to the recovery of the amounts payable in respect of any rights of pasturage, forest rights, rights over fisheries and the like when the provisions of sub-sections (*1*) to (*3*) of section 158A have been complied with.

The insertion of section 158AAA is consequential to the repeal of section 158B (*vide* clause 101), its provision so far as regards rent-suits being covered by or spread into other sections.

Clause 101.—The portion of sub-section (*1*) of section 158B which relates to certificates for arrears of rent has been transferred to the new section 158AAA and placed under Chapter XIIIA. The rest of this sub-section is considered unnecessary in view of the new section 148A.

The provisions in sub-section (*2*) of section 158B have been inserted as sub-section (*7*) of section 148A, with necessary verbal changes—*see* clause 95.

Clause 102.—This clause amends section 159 so as to make it clear that the title of a purchaser of a tenure or holding in a sale in execution of a rent-decree takes effect from the date of the confirmation of the sale in conformity with section 169 (*1*) (*c*).

Clause 103.—It has been considered necessary to make it clear that the right of a raiyat to hold at fixed rent when he has been holding at such rent from the time of the permanent settlement is not affected by rent-sale just as it is not affected by a *patni*-sale or revenue-sale. A new clause (*ff*) has accordingly been inserted in section 160, and the provisions of sub-section (*2*) proposed in section 160 in the Bill of 1925 have been added to it as an *Explanation*, with necessary verbal changes.

Clause 104.—The use of a single form for the order of attachment and the proclamation of sale of property is proposed, in order to simplify the procedure for the execution of rent-decrees. It is also proposed, in lieu of the present law, which prescribes a large number of methods of publication of this notice, to insert in section 163 three essential methods of advertising the property for sale.

Clause 105.—This proposed amendment of section 166 is consequential upon the proposal in clause 14 to allow a raiyat at fixed rates to acquire the status of a settled raiyat.

Clause 106.—The proposed amendment of section 167 regarding the date is consequential upon the proposed amendment in section 159 and in conformity with the present section 169 (*1*) (*c*).

Clause 107.—The proposed amendments of section 169 are consequential upon those proposed in section 148A in clause 95.

Clause 108.—Of the alternative section 170 now in force in Western Bengal and Eastern Bengal, respectively, the Eastern Bengal form has been adopted, in order to avoid possible hardship to persons interested in the tenancy who have not been made parties to the suit. The change in sub-section (*4*) is consequential on the amendment of section 174 in clause 111.

It is proper that the right to pay the amount requisite to prevent the sale should be extended to all persons whose interests are affected by such sale and not merely to persons whose interests are voidable upon the sale. A necessary amendment has accordingly been proposed in sub-clause (*2*) of clause 108.

Clause 110.—The present law does not permit the benefit of section 172 in cases in which an inferior tenant pays money into Court under section 174 to set aside a sale. It is reasonable that he should have the same benefit and the Select Committee's amendment has accordingly been adopted.

Clause 111.—Under the old section 174 the judgment-debtor alone can deposit the decretal amount but not any other person whose interests are affected by the sale. These other persons have to apply under the Code of Civil Procedure. This section is intended to cover the cases of all these persons also.

Sub-clause (*3*) of clause 111 is intended to prevent false and vexatious applications for setting aside sales.

The Select Committee's view that an appeal should lie against an order setting aside or refusing to set aside a sale has been accepted in sub-section (*5*) of the proposed section 174.

Clause 112.—The proposed section 174A is necessary owing to the changes made in clause 111 as to the inapplicability of rules 89 and 90 in order XXI in Schedule I to the Code of Civil Procedure, 1908.

Clause 113.—This clause brings up to date the reference to the Indian Registration Act in section 175.

Clause 114.—The changes proposed in section 178 are mainly consequential upon the general principles adopted regarding rights of under-raiyats and transferability. In particular, it is proposed to prevent any contract, whether made before or after the passing of the Bengal Tenancy Act, from taking away or limiting the statutory right of an under-raiyat as against his immediate landlord or the right of transferability of an occupancy raiyat or under-raiyat, or their rights regarding trees.

It is also proposed to limit the right of a landlord to recover from a raiyat or under-raiyat as rent produce in excess of half the gross produce of the holding.

Clause 115.—Under the present interpretation of section 179, conditions for *abwabs* [which are illegal under section 74 or section 77 (*3*)] or for interest on arrears of rent in excess of that allowed by section 67 can be embodied in permanent *mukarrari* leases. It is proposed to make such conditions in future leases of this description invalid.

Clause 116.—The existing provision regarding homesteads in section 182 leaves the law in a state of great doubt and uncertainty. It is proposed, therefore, to provide generally that the homestead rights of a raiyat or under-raiyat of the same or a contiguous village shall ordinarily be regulated by the provisions of the Act.

Clause 117.—It is proposed to omit both illustrations to section 183 in view of the general principles adopted regarding transferability and the rights of under-raiyats.

Clause 118.—The Indian Limitation (Amendment) Act, 1922 (X of 1922), appears to have made some changes in the law of limitation as regards cases under the Bengal Tenancy Act. It is proposed, however, to retain the substance of the law as at present in the Bengal Tenancy Act by the necessary changes in section 185.

Clause 119.—The omission of clause (*b*) of sub-section (*1*) of section 186 is consequential to clause 88 abolishing distraint.

Clause 120.—This amendment of section 186A follows from the repeal of section 158B in clause 101.

Clause 121.—In the new section 188 it is proposed to extend the same principle underlying the amendment proposed in section 148A to a number of cases at present governed by section 188 of the Act, and it is made clear which suits are to be brought and which applications are to be made by all the landlords together or by an agent authorized

to act on behalf of all of them when they are co-sharer landlords and in which cases any of the co-sharer landlords may obtain the relief sought for if he makes the other co-sharer landlords parties to the suit or proceeding.

Clause 122.—The repeal of section 188A in this clause is consequential to the repeal of section 158B in clause 101.

Clause 124.—Sections 191 and 192 have been amalgamated. It has been made clear that in fixing fair and equitable rents of under-tenants, the ordinary rules of enhancement and reduction of rent would be applicable even though the proceedings may not be under Part II of Chapter X. It has also been made clear that the 10 *per centum* allowance to a tenure-holder may be divided between him and the under-tenures created by him.

Clause 125.—This is in keeping with the protections given in section 178.

Clause 126.—The Patni Taluk Regulation deals with *khudkast* or resident raiyats, and not with occupancy raiyats. All occupancy raiyats are not therefore protected in the event of the patni taluk being sold up for arrears of rent. It is proposed to remedy this by an amendment of section 195.

Clause 127.—The present section 196 is unnecessary and has been repealed.

Clause 128.—The clause makes formal drafting amendments in regard to certain references in the Act.

Clause 130.—This clause substitutes references to the present Code of Civil Procedure for the references to the previous Code contained in the present Act.

Clause 131.—This clause makes certain formal re-arrangements in sections 3 and 148.

Clause 132.—The form of rent-receipt has been found defective. Moreover as a record-of-rights has been completed in the greater part of the province, it is necessary to provide for references to it. Instead of prescribing a form in the Schedule of the Act, the particulars which such form should contain have been indicated in the new Schedule II.

Clause 133.—This amendment in Article 1 (*a*) in Part I of Schedule III is consequential on the proposed amendments of section 44 in clause 30.

Clause 134.—This new article in Part I of Schedule III is necessary in view of the new sub-clause (*cc*) in section 44 (clause 30).

Clause 135.—An error in drafting in Article 2 in Part I of Schedule III, namely, the omission of the word "tenure" has been corrected.

Clause 136.—Sub-clause (*1*) introduces a necessary change in the date of the Indian Limitation Act.

By sub-clause (*2*) it is proposed to enact that the time spent on the execution of a decree for rent on a sale which is subsequently set aside on application shall be excluded from the calculation of the period of limitation for the execution of such a decree.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF THE DISTRICT BOARDS IN BENGAL DURING THE YEAR 1926-27.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

CALCUTTA, THE 10TH JULY 1928.

RESOLUTION—No. 2175 L. S.-G.

Minister-in-charge: The Hon'ble Sir P. C. Mitter, Kt., C.I.E.

READ—

The reports of the Commissioners of Divisions on the working of District Boards in Bengal during the year 1926-27.

District Boards.—The total number of members increased from 676 to 683 and the percentage of elected members was 61·2. Two District Boards out of a total number of 26 had nominated Chairmen, one of whom was an official. The Chairman elected by the reconstituted District Board of Midnapore did not meet with the approval of Government. As Government had no power to call on the Board to elect another Chairman, the order extending to the Midnapore District Board the privilege of electing its own Chairman was temporarily rescinded and a non-official Chairman was appointed. The number of meetings held during the year was 421 of which 9 proved abortive for want of a quorum. The Hooghly District Board again failed to meet once a month. Party faction seriously hampered the proper working of the Midnapore District Board. The administration of the 24-Parganas District Board continued to be carried on under the same disadvantage.

2. **Local Boards.**—There was no change in the number of Local Boards. Out of a total number of 82 Local Boards with 1,335 members, four were presided over by nominated non-official Chairmen, another four by elected official Chairmen and the rest by elected non-official Chairmen. They held 852 meetings of which 27 proved abortive for want of a quorum. The question of the future of Local Boards is still under consideration.

3. **Village Self-Government.**—Altogether 2,260 Union Boards worked during the year against 2,217 in the previous year. In Rangpur 318 Union Boards were formed, but they did not commence work till after the close of the year. In some places Union Boards were sanctioned by Government but could not be formed before the end of the year, while in many others, proposals for the establishment of new Boards were either submitted to Government or were in the course of preparation. The Khulna District Board is reported to have agreed to the proposal of the District Magistrate to extend the Union Board system and to have adopted a formal resolution to introduce it all over the district.

In the 24-Parganas District opposition to the extension of Village Self-Government has not ceased altogether; and it is reported by the Chairman of the Noakhali District Board that the preponderance of popular opinion is against the system being introduced in the Sadar subdivision of the district. The protests in the former district appear to be somewhat artificial and not to emanate from the villagers themselves, while in Noakhali the Chairman hopes that public opinion will be in favour of the system when better results have been obtained from the Union Boards already in existence in the Feni subdivision; the Commissioner of the Chittagong Division agreeing with the District Magistrate thinks that the opposition is dying down.

The Union Boards which worked during the year realised under clauses (*a*) and (*b*) of section 37 of the Bengal Village Self-Government Act and as rents of chaukidari chakran lands a total sum of Rs. 32·4 lakhs of which Rs. 27 lakhs was spent on establishment (which of course means principally the village police, payment of whose salaries by the Union Boards is a statutory obligation) and collection charges leaving a balance of Rs. 5 lakhs only, as in the previous year, for communications, medical

aid, education, water-supply and sanitation. Boards in general are thus not showing any increased willingness to impose taxation under section 37 (*b*) for works of local improvement.

The names of many Union Boards in the Burdwan Division stand out for good work. Specific mention has been made of the Panchra Union Board in the district of Burdwan, which, in view of the scarcity of drinking water, sank 5 tube-wells and set apart several tanks for drinking purposes with the consent of the owners. It also maintained drains 4 miles in length and extended a mile more the long drain cut in the previous years which not only supplied the villagers with good drinking water, but has helped them to improve their agriculture. In Hooghly the Katke-Boinchee Union Board appears to be the most advanced Union Board in the district as regards "conservancy," having introduced a regular conservancy system within its area. In Howrah, the Amadah Union Board reclaimed two drainage khals at a total cost of Rs. 3,688, the Sasati Union Board re-excavated a khal at a cost of Rs. 2,655 and the Uluberia Union Board took up the construction of a sluice at Hatimaran at an estimated cost of Rs. 3,237. In the Bogra district also the Union Boards at Sonatala, Hilli, Jaipurhat and Santahar did excellent work during the year. On the other hand, the Jargram Union Board in the district of Burdwan failed even to make payment in time of the salary, etc., of the dafadars and chaukidars and an officer had to be appointed by the District Magistrate under section 54 of the Act. Most of the Union Benches and Courts worked fairly satisfactorily and commanded the confidence of the local public.

Except in a few districts, the attitude of District and Local Boards towards Union Boards were sympathetic. The contributions received by Union Boards from District Boards rose from Rs. 3·5 lakhs to Rs. 4 lakhs, the most substantial grants reported being those given by the District Boards of the 24-Parganas, Nadia, Khulna and Bogra. District Boards in districts in which a few Union Boards only have so far been established should be careful not to make contributions on a scale which will be beyond their means when Union Boards are working throughout the district.

In spite of party faction in some places, the provisions of the Act are being carried out by the Union Boards in a spirit which ensures its ultimate success. Many of them displayed commendable zeal in improving drainage and water-supply as well as in primary education. In many Unions the elections were keenly contested which goes to show that there is a growth of interest in Union Board affairs. It is unfortunate that reluctance on the part of many of the Boards to levy taxation at a rate adequate to their needs stands in the way of more rapid progress. It is doubtful indeed if any widespread improvement in rural health conditions can be brought about through the agency of Union Boards. There are too many which lag behind and fail to keep step with those which are more enterprising and enlightened. But much is being done and much more could be done to provide the village people with the elementary amenities for civilized life such as roads, drinking water, primary schools and inexpensive justice.

4. **Finance of District Boards.**—The receipts amounted to Rs. 138·75 lakhs against Rs. 135·3 lakhs in the preceding year, the increase being mainly due to larger receipts under the heads "Medical" and "Debt." The receipts under "Education," "Civil Works" and "Scientific" and other minor departments declined. The expenditure rose from Rs. 137·07 lakhs to Rs. 141·21 lakhs. The increase was chiefly due to larger expenditure on "Education," "Medical," "Civil Works," "General Administration" and "Scientific" and other minor departments. The closing balance amounted to Rs. 34·68 lakhs (of which Rs. 17·85 lakhs were in cash) against Rs. 37·15 lakhs in the previous year.

5. **Taxation.**—The average incidence of cess throughout the Presidency was 2 annas 11 pies a year per head of population, varying in different districts from 1 anna 7 pies to 9 annas.

6. **Education.**—The expenditure rose by Rs. 2·37 lakhs to Rs. 32·84 lakhs of which Government contributed Rs. 18·25 lakhs, while other contributions, school fees and miscellaneous receipts amounted to Rs. 11,000, Rs. 42,000 and Rs. 26,000 respectively. District Boards from their own funds contributed Rs. 13·8 lakhs against Rs. 11·26 lakhs in the previous year.

The number of upper and lower primary schools maintained and aided by District Boards rose from 41,998 to 43,701—32,574 being boys' schools and 11,127 girls' schools. The number of pupils attending these schools was boys 1,164,738, girls 280,668.

Union Boards continued to maintain free primary schools on the lines suggested by Mr. Biss. The primary schools in Burdwan district (except in Asansol subdivision) were under the management and control of Union Boards concerned. In Faridpur there were 26 free primary schools under the management of 4 Union Boards. New free primary schools were started in Bankura, Murshidabad and the 24-Parganas districts. In pursuance of a policy of imparting free education all over the district the 24-Parganas District Board sanctioned a scheme for the establishment of one free primary school in every thana.

The number of night schools established in Birbhum and Hooghly for the education of labouring class increased from 136 to 149 with about 3,000 pupils on their rolls. The District Board of Darjeeling aided 109 such schools.

Technical and Industrial education continued to receive attention. One peripatetic weaving school in Bakarganj, two weaving schools in Dinajpur and one technical school in Pabna were provincialised. A weaving school was started at Khulna. It teaches plain and fancy weaving of cotton cloth and spinning of jute coir and silk. The scheme for the establishment of a technical school at Krishnagar matured during the year. The Howrah District Board encouraged hand-spinning in middle schools.

7. **Medical relief and Public Health.**—The expenditure under these heads aggregated Rs. 21 69 lakhs against Rs. 20 24 lakhs of the previous year. Twenty-three new dispensaries were opened during the year and the total number of dispensaries maintained and aided were 508 and 346 respectively. Dispensaries were also maintained by some Union Boards. Medical relief was as usual provided primarily through these institutions and also through a small number of Homœopathic, Ayurvedic and Hakimi dispensaries maintained or subsidised by District Boards. During epidemics of fever, cholera and small-pox additional centres were opened under trained doctors and itinerant doctors were also engaged for the distribution of medicine and the treatment of cases.

Many co-operative societies and health associations did useful work and undertook the treatment of, and initiated preventive measures against, kala-azar and malaria. To help malaria-stricken villagers inhabiting places remote from dispensaries cinchona febrifuge, supplied by Government, was distributed free through Presidents and anti-malarial societies. The 24-Parganas, Howrah, Rajshahi, Mymensingh and several other District Boards started vigorous campaigns against kala-azar. A scheme was sanctioned for kala-azar treatment in Burdwan at an estimated cost of Rs. 4,500 of which Government contributed Rs. 3,000.

Cholera broke out in epidemic form in several districts and the District Boards concerned took prompt measur s to cope with these outbreaks. Inocula tion with anti-cholera vaccine and disinfection of wells checked in many places the spread of the disease within a very short time. The utility of inoculation was greatly appreciated by the rural people. Measures were taken in several districts to push on intensive vaccination. Free vaccination on the gang system was carried on in Rajshahi from 1,548 depots. There were about 42,000 primary vaccinations and 52,100 revaccinations in that district during the year. It is reported that owing to the want of female vaccinators, comprehensive revaccination of pardanashin females could not be undertaken.

Attention was paid to maternity and child welfare work. Some District Boards opened dai training centres and held baby-shows at which prizes were distributed. The 24-Parganas District Board appointed 3 midwives whose duty it was to visit selected villages in turn and give lessons in the elementary principles of midwifery.

The District Board of Bankura has made a small beginning in tackling the problem of leprosy and should follow it up on the lines of the work which includes survey and treatment now being carried on in one centre in the district under Dr. Muir's scheme.

The extension of medical relief like other activities of the District Board is hampered by lack of money. Every new

unendowed charitable dispensary that is opened involves a recurring charge on the district fund and may necessitate curtailing expenditure under some other head It is important therefore that all alternative means of spreading medical relief should be adopted.

Union Boards should be encouraged to open small-scale dispensaries from their own resources; the formation of village health societies on a co-operative basis which will supply medicine free to their members and on payment to outsiders should be promoted, and the system of subsidising doctors who will treat the poor free of charge should be adopted wherever possible.

A point that the Minister would like to emphasise is that medical relief should be extended by all means possible. The ideal would be to have a number of *charitable* dispensaries sufficient for the needs of the rural public; but if funds for such a programme are not forthcoming it is better to have institutions that are partly self-supporting through the sale of medicine than to have none at all.

8 **Veterinary.**—The charges under this head increased from Rs. 1 65 lakhs to Rs 2 09 lakhs, the increase being shared notably by the District Boards of Midnapore, Nadia, Faridpur, Chittagong, Tippera and Rangpur. The expenditure decreased in the 24-Parganas and Noakhali Cattle disease broke out in the districts of Burdwan, Birbhum, Faridpur, Bakarganj, Dinajpur and Pabna Two thousand eight hundred and two animals are reported to have died from contagious disease in Bakarganj alone Inoculation against rinderpest was performed free of charge by Veterinary Assistant Surgeons in several districts. The Veterinary Assistant Surgeon of the District Board of Nadia did useful work by way of taking prompt steps in the prevention of cattle diseases and by teaching people how to treat and prevent such diseases

New veterinary dispensaries were opened at Tangail, Saidpur (Rangpur) and Darjeeling A cattle show was held at the Malda Social Service Exhibition A veterinary stall was opened for carrying on propaganda work with the help of posters, photographs of well-bread animals, veterinary instructions and country drugs and of demonstrations. Mr. L B Burrows, District Magistrate of Faridpur, says: "Cattle epidemics were much more efficiently handled in the year under report but constant vigilance will always be necessary to ensure prompt reporting and adequate preventive and curative measures. He considers that if sufficient supply of free serum is forthcoming, the prospects of cattle protection are promising. No real improvement of the condition of cattle however can be expected unless the animals are properly fed.

9. **Civil Works.**—The total expenditure under this head rose from Rs. 63 12 lakhs to Rs. 64 81 lakhs The expenditure on "Buildings," "Communication" and "Establishment" increased by Rs. 98,000, Rs. 60,000 and Rs. 26,000 respectively and that on "Water-supply" fell by Rs. 46,000. The outlay on original works under "Communication" showed an increase of Rs. 1 07 lakhs but the cost of repairs decreased by Rs 47,000, while in the case of "Water-supply" capital expenditure fell and maintenance charges increased by Rs. 78,000 and Rs. 32,000 respectively.

The mileage of metalled and unmetalled roads was 2,513 and 15,447 against 2,495 and 15,305 of the previous year.

The increasing use of motor vehicles, especially omnibuses, in the mufassal made it very difficult for District Boards to maintain their roads in proper condition. The question of road development in India is now being considered by a Committee appointed by the Government of India. In view of the possibility of the levy of some form of taxation on motor vehicles the proceeds of which will be available to finance road development, the Government of Bengal have asked local bodies to formulate schemes in advance for the reconstruction of roads and bridges so as to make them fit to carry motor traffic.

The motor omnibus has certainly improved travel facilities in rural areas and fulfils a useful role in the countryside. The Minister is however fully alive to the embarrassment caused to District Boards by the damage done to their roads by these vehicles.

Whatever may be the outcome of the deliberation of the above-mentioned Committee he thinks that a small surcharge—say 5 per cent.—on the estimated income from the fares paid by 'bus passengers would not be a burdensome impost while if the revenue derived

from this source were earmarked for the improvement of roads 'bus-owners would share in the benefits.

District Boards spend considerable amounts on original works under the head of "Communication" every year.

The Minister considers that it would be a wise policy to finance the construction of bridge and culverts and other schemes of road improvement which are of a permanent nature from loan funds instead of from current income.

Increased road mileage involves higher charges for upkeep so that District Boards can hypothecate for the service of loans only a portion of the amount which they spend annually on the improvement of communications, keeping ample sums in hand for repairs and maintenance.

There seems however to be room for a bolder policy in this respect.

The income (Rs. 13,794) of District Boards from their roadside trees, etc., remained almost the same as in the previous year. The expenditure on arboriculture fell from Rs. 26,145 to Rs. 25,736. The number (9,168) of trees planted during the year showed an increase of about 1,100 over that of the previous year. Though nearly one-half of the number died, the number of deaths was less than in the preceding year. The heaviest losses occurred in Burdwan which planted the largest number of trees, and in Bankura, Nadia and Noakhali.

The percentage of total lapses to the total budget allotment increased specially in the 24-Parganas (14·8), Jessore (15) and Darjeeling (16·4). The percentage though still high decreased in Burdwan (13·7), Faridpur (11·9) and Pabna (15·7). In Burdwan the large unspent balance of the preceding year which was provided in the supplementary budget estimate could not be economically spent during the year and the old complicated claims of contractors could not be settled. The lapse in Pabna was due to the non-completion of certain works before the end of the year for want of bricks and to the prevalence of cholera and small-pox owing to which contractors could not procure coolies. No reason was given for the heavy lapses in Darjeeling.

No part of the allotments lapsed in Hooghly, Murshidabad and Malda; the last named District Board largely overspent its allotment.

10. **Water-supply.**—The expenditure on water-supply declined from Rs. 9·1 lakhs to Rs. 8·62 lakhs. Altogether eleven district boards spent larger amounts than in the previous year. Burdwan, Bankura, 24-Parganas, Mymensingh, Pabna and Malda which spent larger sums than their augmentation grants deserve special mention.

In Nadia, the District Board grant with the Government contribution was placed in the hands of the Subdivisional Officers who, in open conference with the members of Local Boards, Circle Officers and Presidents of Union Boards, selected sites and got the work done through Union Boards with the help of one-third contribution from the local people, the District Board supervising the construction of wells through its engineering staff. In the 24-Parganas 191 tube-wells, 3 masonry wells and 3 tanks were completed during the year, while the excavation of 12 tanks and sinking of 6 masonry wells and 41 tube-wells remained unfinished. In addition a number of tube-wells were sunk by Local and Union Boards. The total number of tube-wells now amounts to 691 and to look after them the District Board maintains a staff consisting of one mechanic and six mistries. A sum of Rs. 15,000 was spent by the Board to supplement the Government grant of the same amount placed at the District Magistrate's disposal for sinking tube-wells in rural areas through the agency of Local Boards, Union Boards and Union Committees. In Khulna the allotment for water-supply was divided between Local Boards who prepared programmes with the help of the Subdivisional Officers. Loans were also advanced to private individuals for the excavation and re-excavation of tanks. The Hooghly District Board spent Rs. 16,600 in sinking tube-wells, masonry wells and repairs of tanks and wells. This Board got a loan of Rs. 1 lakh from Government for the improvement of rural water-supply. It is hoped that when the scheme of water-supply for rural areas is fully carried out one-fourth of the district will be saved from the scarcity of drinking water. In Dacca the construction of 2 tanks and 40 wells was completed and the construction of 4 tanks and 51 wells was undertaken. The Mymensingh District Board sank 64 masonry wells, 143 tube-wells

and 14 ferro-concrete wells and 1 tiled well and excavated 2 tanks during the year. The Board employed one permanent and one temporary mistry for the repair of tube-wells. The Bakarganj District Board spent Rs. 24,170 on excavation of new tanks and Rs. 6,080 on maintaining existing ones. It excavated 6 tanks and undertook the excavation of 15 tanks during the year. Altogether there are 315 reserved tanks under the control of the Board excluding 68 other tanks excavated with contribution from the Board.

In many areas within recent years tube-wells have become a popular source of water-supply. Where tube-wells are possible, they have many advantages. There is little risk of contamination and if the tube is a small one the cost is much cheaper than that of digging a tank or constructing a pucca well.

Reference was made in the previous year's Resolution to certain suggestions made by the Magistrate of Mymensingh regarding the use of such wells. These suggestions were examined in the Public Health Department and a pamphlet (in English and Bengali) explaining the mechanism of a tube-well and how to effect repairs at a cheap cost—which was prepared by the Department—was circulated to all District Boards and Municipalities in Bengal.

The Minister considers that a well-thought-out policy of providing new sources of water-supply and of improving the existing sources is essential. Patent facts show that if every village in Bengal has to be supplied with a wholesome source of water-supply in the near future, it can only be done with a better organisation and with more self-help in local village units. While it is true that there are many villages where the population is comparatively poor, it is equally true that in other villages the people are not so poor as not to be able to bear a considerable portion of the expenditure necessary for providing their villages with a wholesome source of water-supply. The rural population of Bengal lives in over 84,000 villages of varying size and material conditions. Of the 43 millions odd who live within the jurisdiction of district boards in the 84,000 villages, some 8 millions live in 2,885 villages in each of which there is a population of 2,000 to 5,000. More than 9 millions are to be found in 7,137 villages each with a population of 1,000 to 2,000 and there are more than 59,000 villages with a total population of 12 millions odd in each of which the number of inhabitants is under 500. There are 14,000 odd villages with a total population of 10 millions odd in each of which the population is between 500 to 1,000. Speaking generally, it ought not to be difficult for villages with a population of 2,000 to 5,000 to bear the bulk of the expenditure on their local water-supply. Speaking generally again, it ought not to be difficult for the 7,000 odd villages with a population of 1,000 to 2,000 to bear a fairly substantial portion of the cost of their local water-supply. It is in the very sparsely populated villages, the number of which is large though the aggregate population living in them is a comparatively small proportion of the whole, that real poverty is likely to exist. District Boards and Union Boards will be well advised if they pay greater attention to local contributions according to local ability. The wealthier village has sometimes a larger influence, and the members of the District Boards who are custodians of the public purse and whose duty it is to pay more attention to the poorer section of the population should guard against the possibility of the wealthier villages getting their source of water-supply without contributing an adequate portion of the expenditure. If this warning be kept in mind, the limited resources of the District Boards and Government will go a much longer way than they would under an indiscriminate policy of providing a source of water-supply if a certain proportion be paid by a particular locality irrespective of the capacity or wants of that locality as compared with those of others in the district. In the rural areas, there are many potential sources of wholesome water-supply owned by co-sharer owners or by others who are not willing to help in the solution of the problem of wholesome water-supply even though their material interests are not likely to suffer if they do so. The Minister will be very pleased to receive definite suggestions in the matter from the District Boards. If need be, he will be prepared, provided he gets public support, to introduce legislation to compel co-sharer owners and others to grant their neighbours access to sources of wholesome water-supply It must, however, be understood that it will not be right to do this by action which would

amount to deprivation of private rights. In many cases, the owner of the tank derives income from the exercise of the fishery right and in a limited number of cases, an additional income by supplying water for irrigation purposes. Provided these rights are fairly safeguarded, it should be feasible in return for a comparatively small compensation to compel owners of sources of water-supply to allow their neighbours to take their drinking water from such sources and to get their tanks re-excavated for that purpose. If such powers are taken, then the total cost of providing a wholesome source of water-supply for each village will be considerably diminished without detriment to proprietary rights. It is desirable that the District Boards should prepare as early as possible a detailed programme aimed at providing every village with a wholesome source of water-supply with an approximate estimate of the cost of such supply. The Ministry of Local Self-Government will at an early date address a circular to the different District Boards calling for certain definite information about a complete programme of rural water-supply in the districts, but in the meantime the Minister desires to draw the attention of the District Boards to the necessity of having such a programme and estimate for each district, so that the whole problem can be investigated with more definite data than it has been possible hitherto to do.

11. **Closing Balance.**—The year closed with an actual balance of Rs. 17·8 lakhs against 21·7 lakhs of the previous year. There were heavy balances in the District Board of Burdwan (Rs. 2,49,637), Hooghly (Rs. 1,07,380) and the 24-Parganas (Rs. 3,01,550), while the District Boards of Jessore (Rs. 9,313) and Noakhali (Rs. 4,207) closed the year with unduly low balances. The heavy balance in Burdwan was largely due to the dislocation of work caused by the dismissal of the late District Engineer and that in Hooghly was due to the receipt of a loan of Rs. 1 lakh from Government in the last part of the year which could not be expended during the year. Of the heavy balance at the credit of the 24-Parganas District Board, Rs. 2,71,000 represented unspent balances under "Education," "Medical," "Civil Works" and other heads and receipts amounting to Rs. 86,000 over budget provision. The Nadia District Board closed the year with a debit balance. This was mainly due to a large legacy of debts left by the old Board.

12. **General remarks.**—The administration of District Boards was on the whole carried on satisfactorily under the guidance of non-official Chairmen most of whom evinced a real interest in the affairs of the Boards though, as a rule, they are unable to do as much touring as is desirable to control the outdoor work of their officers.

In the case of some District Boards the Chairmen are not regular residents in the districts and thus are not in a position properly to attend to the work of the District Boards, namely, to conduct meetings and to supervise the work of the office and of the Board's subordinates.

The Commissioner of the Presidency Division observes :—

"Harmony generally prevailed among the members throughout the year except in the case of 24-Parganas where..... partisan spirit played a considerable part in the working of the Board and was accentuated during the elections. The election disputes were a common feature in the reconstitution of the Boards and were an indication of the growing interest which the public are taking in the affairs of the local bodies. But the inordinate delay in disposing of them considerably hampered work..... In the matter of rural water-supply the District Boards freely co-operated with the Government officials and generally supplemented allotments made from Government grant for improvement of water-supply in rural areas."

The increase of the number of anti-malarial and health societies indicates that the District Board propaganda has to a certain extent succeeded in rousing the people. Some of these societies formed on co-operative lines with Government grants are reported to be doing excellent work.

It is impossible to conclude a review of the working of District Boards without a reference to the perennial problem of lack of funds.

With a total income of Rs. 138·74 lakhs, 32·47 lakhs of which consists of Government grants, District Boards are expected to provide the primary amenities of civilised life such as communications, medical and veterinary treatment,

education, and sanitation to a population of about 43½ millions spread over an area of more than 70,000 square miles. Government in spite of the will to help are in no position to make much larger contributions from their own limited and unexpanding resources.

Apart from such increases of income as may be obtained from periodical cess-revaluations the Minister considers that there are three methods by which additional funds for the uplift of the rural areas may be obtained, namely, by realising voluntary contributions, by a greater readiness on the part of Union Boards and Union Committees to use their powers of imposing a local rate, and by the adoption by District Boards of such powers of levying new taxes as are given to them by the Scheduled Taxes Rules.

The true foundation of village improvement could be laid if workers in the cause of rural uplift devoted themselves to one area after another, raised a sufficient sum from voluntary donations, and helped the villagers to spend it for the common good.

The Minister desires to bring this aspect of the problem to the notice of that section of the public which is really interested in improving the conditions of village life. An expenditure of even two annas per head of population raised in this way would, when supplemented by grants from Government and the District Boards, bring about a vast amelioration in rural conditions. Union Boards already raised over Rs. 5 lakhs by voluntary taxation under section 37 (*b*) of the Village Self-Government Act. This source of income is elastic and there is much room for expansion without causing undue hardship to the ratepayers. In this direction, too, the influence of those who have the welfare of the rural population at heart might be usefully employed.

There remains the possibility of using the powers of levying additional taxation which may be conferred on District Boards by the Legislative Council. Imposts which are permissible include tolls, taxes on vehicles and boats, a tax on trades, professions, and callings, and a tax on private markets.

The Minister does not feel it incumbent on him to call upon District Boards to send up proposals for increased taxing powers which he may lay before the Legislative Council. He holds the view that it is for the Boards themselves, as local bodies primarily responsible for the improvement of rural conditions, to formulate their proposals and to submit them for his consideration.

In conclusion he would again point out to District Boards the desirability of adopting a well-considered loan policy for the execution of works of a permanent nature. Such a policy not only ensures that future generations which share the benefit will also contribute to the cost but also enables the Boards to undertake works the cost of which they are unable to provide out of current revenue.

The Minister desires to express his appreciation of the good work done by the following gentlemen :—

Provision shall be made for the effective disconnection of all steam and hot water communication with any other boilers under steam, as prescribed in Part III of the regulations. ORDERS BY THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The examinations of the following candidates are cancelled for using unfair means at the B.A. Examination, 1928. Additional punishment imposed is noted against the name of each :—

Name, Roll No. and College.	Nature of unfair means adopted.	Punishment.

2. Amalendu Sen (Cal. 980), Vidyasagar College.	Found copying from a *Khata* which the candidate brought from outside. Admission to the examination cancelled and the candidate debarred from appearing at any examination of this University before January 1930.
9.	Ramkrishna Bhattacharyya (Bank. 6), Bankura Weslyan College.	The Officer in-charge of the B. Sc. Culshaw, who was then invigilating, to stoop down and pick up a piece of paper from the ground. The two pieces of paper marked A 1 and A. 2 were found in his pocket when he returned. He further reports that papers marked B, C, and C 2 were found placed in the ground under stones, in the neighbourhood of the part of the compound where candidates went to relieve themselves, and that some students were actually seen to place those papers. PRELIMINARY FORECAST OF THE JUTE CROP, 1928.

CONSOLIDATED STATEMENT FOR BENGAL, BIHAR AND ORISSA AND ASSAM.

[This Forecast deals with estimates of areas only. Estimates of outturn are dealt with in the Final Forecast.]

Area in 1928.—The estimated area of jute in the three provinces in the present season is 3,166,200 acres, a decrease of 207,900 acres, or about 6 per cent. as compared with the figure for 1927.

The consolidated figures are as follows:—

DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE JUTE CROP OF BENGAL, 1928.

[NOTE.—On an average of the five years ending 1925-26, the area under jute in Bengal, to which this Forecast relates, represents some 84·7 per cent. of the total area under jute in British India.]

The Preliminary Forecast deals only with estimates of area sown and the condition of the crop at the time of publication of the Forecast. The estimates of area are based on information received through the Collectors from the Revenue staff; also from Panchayets and Agricultural Officers.

Area sown in 1928.—In Bengal, district returns for the present season show a total area of 2,711,200 acres, a decrease of about 250,900, or about 8 per cent. as compared with the final figures for 1927.

Character of the season.—So far the season has been favourable on the whole, though a drought in April delayed sowings in some cases, and hindered growth of the germinated crop in others. On this account the crop is inclined to be late, and, therefore, rather more than usually dependent on weather conditions from now onward. There has been excessive rain in Noakhali, also in some tracts in Mymensingh.

Present state of the crop.—There has been a certain amount of damage by insects, but, with the exceptions mentioned above, the present condition of the crop may be regarded as satisfactory.

Stocks.—Stocks of fibre from last year's crop are reported to be comparatively small.

Director of Agriculture, Bengal.

APPENDIX I.

Preliminary Jute Forecast of 1928.

District.	Estimated area under jute—		Whether much, little or no jute remains in the district from the crop of 1927.	Date by which the sowing of the crop generally commenced this year, and whether the date was early, normal or late.	Remarks by District Officers.

1	2	3	4	5	6
	Acres.	Acres.			
24-Parganas ..	62,000	64,000	Little ..	End of April. Late.	The recent showers have been beneficial to the crop.
Nadia ..	79,000	57,000	Little ..	Beginning of May. Late.	The decrease in area is due to want of timely rain which also retarded the growth of the plants. Insect pests did some damage in Kushtia subdivision. Recent rains have improved the condition of the crop. The prospects are now favourable.
Murshidabad ..	33,000	31,000	Little ..	Middle of May	The decrease in area is due to low price. The weather has been fair.
Jessore ..	107,000	95,000	Little ..	Beginning of May. Somewhat late.	The decrease in area is due to low price of jute. The present condition of the crop is fair.
Khulna ..	39,000	31,000	Little ..	Middle of May	The decrease in area is due to low price of the crop and to unfavourable weather at sowing time. The present condition of the crop is fair.
Burdwan ..	5,000	4,000	Much ..	Middle of May	The decrease in area is due to drought at sowing time. The present condition of the crop is good.
Midnapore ..	9,000	7,000	Very small ..	Middle of May. Normal.	Continued drought at sowing time and low price of the crop are responsible for the decrease in area. The present condition of the crop is favourable on the whole although some damage is reported from Ghatal and Tamluk subdivisions by the recent floods.
Hooghly ..	31,000	29,000	Little ..	Middle of May. A little late.	The decrease in area is due to low price of the crop, to unfavourable weather at sowing time and to extension of rice cultivation. The weather is favourable now on account of the recent rains. Damage by floods in Arambagh subdivision is estimated at about four annas.
Howrah ..	12,000	9,000	Little ..	End of April. Normal.	The decrease in area is due to low price of the crop and to indifferent rainfall at sowing time. The crop is good in high land area and rather bad in low-lying tracts.
Rajshahi ..	105,000	85,000	Little ..	Beginning of April. Late.	The decrease in area is due to late rains and low price of jute. The recent rains have been beneficial. Some damage by insects is reported from places in Nator subdivision.
Dinajpur ..	73,000	66,000	Little ..	Middle of April Normal.	The decrease in area is due specially to scarcity and drought in Balurghat subdivision and to low price of jute. The present condition is fair.
Jalpaiguri ..	48,000	49,000	Very little ..	Middle of April to middle of May. Normal.	The increase in area is due to favourable weather.
Darjeeling ..	3,700	4,000	Nil ..	April. Normal	The weather has been good.
Rangpur ..	309,000	293,000	Little ..	April. Normal	The decrease in area is due to low price of jute and to continued drought at sowing time which also hampered the growth. The present condition is fair.
Bogra ..	105,000	85,000	Little ..	March and April. Late.	The decrease in area is due to low price of jute last year. Early sown low land jute is doing well but the condition of the late sown crop is not good.
Pabna ..	156,000	142,000	Little ..	Last week of March. Normal.	The decrease in area is due to low price of jute and to want of rain at sowing time. Heavy downpour by the middle of June considerably checked the growth of the crop. The present condition is, however, satisfactory on the whole.
Malda ..	43,000	45,000	Little ..	May. Late.	The present condition of the crop is not very promising.
Dacca ..	350,000	321,000	Nil ..	Middle of March. Normal.	The decrease in area is due to low price of the crop and to unfavourable weather conditions. The growth of the crop appears to be satisfactory on the whole though it was slightly retarded by drought in March and April
Mymensingh ..	662,000	650,000	Little ..	Normal ..	The slight decrease in area is due to slump in prices The rainfall has been slightly excessive. The growth of the crop will be affected if no fine spell comes The present condition of the crop is good.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

PRELIMINARY FORECAST OF THE JUTE CROP OF BIHAR AND ORISSA, 1928.

[NOTE.—On an average of the five years ending 1925-26, the area under jute to which Bihar and Orissa Forecast relates, represents about 9·0 per cent. of the total area under jute in British India.]

The present forecast deals only with the estimated area sown. It gives also a general survey of prospects, but makes no reference to the probable outturn either in percentage figures or in bales.

2. **Acreage.**—I estimate the area sown during the current and four preceding years in round numbers as follows:—

Year.	Acreage.
1924	... 212,200
1925	... 263,200
1926	... 297,000
1927	... 241,000
1928	... 247,000

3. **Weather conditions.**—In March light showers fell in the jute districts, except Champaran, Muzaffarpur and Purnea, where there was no rain. The fall was below the normal everywhere. In April light to moderate rain fell in all the jute districts, the fall was above the normal everywhere, except Champaran, Muzaffarpur, Purnea, and the Sonthal Parganas where it was below the normal, and in May the rainfall was below the normal everywhere, except Purnea and Balasore, where it was above the normal. In June rain fell in all the jute districts—the fall was light to moderate everywhere, except the Sonthal Parganas, where it was heavy. The weather conditions are reported to be favourable, and condition of the crop is generally good. Sowings are still going on in Purnea and the Sonthal Parganas.

4. **District returns.**—The total area under jute is estimated by District Officers in round figures at 197,400 acres. Last year's revised area was 241,000 acres and, in my opinion, this year's figure is likely to be not less than 247,000 acres.

5. **Condition and prospects.**—The condition of the crop is good.

6. **General.**—The quantity of jute which remains in the jute districts from the crops of 1927 is reported to be small.

The statement below compares the estimated area under jute in this province this year with the preliminary and final figures of last year:—

DEPARTMENT OF AGRICULTURE, ASSAM.

PRELIMINARY FORECAST OF THE JUTE CROP OF ASSAM, 1928.

[NOTE.—On the average of the five years ending 1925-26, the area under jute in Assam represents 5·1 per cent. of the total area under the crop in British India.]

Character of the season.—The season commenced with dry weather throughout the province when in March it became favourable in the Surma Valley only. In April rainfall was about the average in the Assam Valley while there was severe drought in the Surma Valley. The weather in May was very wet especially in the Surma Valley where there was flood which caused slight damage to the crop in some places, but it improved in the month of June in all districts. On the whole the season has been practically favourable and the prospects of the crop are satisfactory and better than in previous year.

2. **Area sown.**—As estimated by the Deputy Commissioners, the total area under jute is 207,600 acres or 36,600 acres more than the final figure of last year. The increase occurred in all districts in the Assam Valley, except Sibsagar, and is due to extension of cultivation.

3. **Stock.**—As reported by the Deputy Commissioners, little jute remains from the crop of last year in the districts of Sylhet, Goalpara, Kamrup, Darrang and Nowgong.

Sylhet ..	20,000	19,000	19,000	..	..	Very small ..	By the middle of April. Normal.	The weather was unfavourable during the ploughing and sowing season on account of drought. This was followed by heavy rainfall which affected growth of the crop to some extent. The weather is however favourable now and the prospects of the crop appear to be normal. Flood caused slight damage to the crop in places.
Goalpara ..	60,000	53,700	86,000	32,300	..	Little ..	1st week of April. Normal.	There was extension of cultivation under jute. The condition of weather at the time of sowing was favourable. It continues to be favourable till now. The crop at present appears to be good and better than last year.
Kamrup ..	15,000	12,700	16,400	3,700	..	Little ..	15th April. Normal.	The increase in area is due to extension of cultivation by the Mymensingh immigrants and also to favourable weather. The present prospects of the crop are good and better outturn than last year is expected.
Darrang ..	12,600	19,300	19,700	400	..	Little ..	Middle of April. Normal.	The character of weather during the season has been fair and hence a better outturn than last year is expected. The prospects of the crop are fair.

The weather was favourable at sowing time but it was afterwards interrupted by untimely rains which affected growth in certain areas. It becomes favourable now. On the whole the condition of weather during the season is good. Slight damage is reported to have been done by hailstorms and insect pests. The crop is at present good and better outturn is expected than last year.
Sibsagar ..	300	300	300	..	..	No ..	2nd week of April. Normal.	The weather during the season has been on the whole favourable except at sowing time when it was dry. The condition of the crop is fair and better than last year.

R. P. ADAMS,

Chief Inspector of Factories, Bengal.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE JAIL DEPARTMENT IN THE PRESIDENCY OF BENGAL FOR THE YEAR 1927.

GOVERNMENT OF BENGAL.

Political Department.

Jails Branch.

CALCUTTA, THE 13th JULY 1928.

RESOLUTION—No. 1286 P.J.

READ—

The report on the administration of the Jail Department in the Presidency of Bengal for the year 1927.

READ ALSO—

The reports for the years 1925 and 1926 and the resolutions of Government thereon.

1. There was a considerable increase in the total number of prisoners detained in the jails of Bengal during the year under report. The average daily population has also risen from 12,771 in 1926 to 13,536 in 1927. This continues the tendency to increase noticeable in the figures of the previous year after a period of falling numbers dating from 1920 when the average daily population was 15,357.

2. The health of prisoners as indicated by the numbers of average sick cases and deaths though slightly less satisfactory than in 1926 compares favourably with that in other years. Daily average sick cases numbered 32·4 per mille against 31·4 in 1926 and deaths 14·4 per mille against 13·7.

3. The total cost of guarding and maintaining prisoners rose from Rs 23,82,569 in 1926 to Rs. 25,09,958 during the year under report. The increase was chiefly under the heads " Establishment ", " Dieting ", and " Clothing and bedding " in which the expenditure rose by Rs. 32,505, Rs 76,697 and Rs. 18,290. The increase in the two latter items is accounted for by the increase in the number of prisoners.

4. A slight improvement is noted in the average period of detention of under-trial prisoners in jails The average number of days for Sessions cases being 42·17 against 43·12 in 1926 and in Magistrates cases 19·86 against 21·20. In Dacca, Rajshahi, Krishnagar and in the Presidency Jail, however the average period is still above 9 weeks in Sessions cases. The attention of the Judicial Department will be drawn to these delays.

5. There have recently been changes in the organisation of the manufacturing departments of the jails, which render comparison with previous years somewhat misleading. There was a heavy fall in the net cash earnings from Rs. 5,84,898 in 1926 to Rs. 1,72,744 in the year under report. This is reported to be due to several causes : the receipts in 1926 were swollen by the disposal of the jute mills in the Presidency Jail; the manufacture of quinine tablets in the Presidency Jail has been discontinued, and the jail no longer receives credit for a share in the profits of manufacture; the profits on the sale of forms printed at the Alipore Jail Press are no longer credited to the jails manufacturing department. The stock of manufactured articles has also increased and the volume of trading is smaller. The Department is finding increasing difficulty in the face of outside competition in securing orders from other departments of Government. It is evident that this branch of jail administration continues to require careful attention.

6. The Governor in Council shares with the Inspector-General and other officers of the Jail Department the disappointment they feel in the slow progress made in introducing reforms of which the need is admitted. These reforms were indicated in the report of the Indian Jails Committee in 1919-20. They were re-stated in the report of the Bengal Jails Enquiry Committee in November 1927. Some progress has been made but the Jails Department has suffered equally with, if not more than, other departments in Bengal from the financial starvation imposed upon the province by the Meston award. It has therefore only been possible to introduce reforms of which the cost was not great. One of the most important of the necessary reforms is the separation of the different classes of prisoners, of long-term and short-term prisoners, of habitual criminals and non-habituals, of youthful prisoners and adults. The complete separation of these classes involves heavy expenditure that cannot now be met, but it is satisfactory to record that a further step has been taken by the passing of the Borstal Schools Act and the establishment of a Borstal School at Bankura. This institution now receives adolescents from the age of 16 to 21 sentenced by courts to detention in a Borstal School under the Act and also young prisoners who have been sentenced to ordinary terms of imprisonment but who are selected by the Inspector-General as suitable inmates for the school.

With the object of assisting adolescent offenders on release an " After-care Association " has been formed composed largely of non-officials and assisted by a grant from Government. The Governor in Council desires to record his appreciation of the services of the members of the public mentioned in paragraph 2 of the report, who have worked for the organisation of the association. It is hoped that their example will be followed by others in the mufassal to which it is intended ultimately to extend the activities of the association.

The Reformatory and Industrial School at Alipore which receives juvenile offenders under the age of 16 made good progress during the year under report. Its control has since April 1928 been transferred to the Education Department. Juvenile offenders outside Calcutta have still to be sent either to the Reformatory School at Hazaribagh or to jails in this province owing to the absence of any special institution for their reception. The establishment of such an institution is one of the more urgent reforms necessary.

Another reformative measure which promises to be of value was the introduction of a system of compulsory primary education for young prisoners with sentences of over six months in the Alipore Central Jail. The school is reported to have brought about a marked improvement in the discipline, cleanliness and general behaviour of those who attended it. The results have been most encouraging and His Excellency in Council hopes that the experiment will be continued and extended to other jails.

7. The percentage of prisoners with sentences not exceeding one month was 30·07 per cent. in the year under report against 32·33 per cent. in 1926. The Inspector-General however calls attention to the fact that the number of short-term prisoners is still very high, particularly in the Presidency Jail where no less than 1,569 had sentences of seven days or less. His Excellency in Council agrees with the Inspector-General that little good is done by these short sentences. They are ordinarily due to the non-payment of fines, and the attention of Magistrates will again be drawn to the importance of allowing sufficient time for the payment of fines before sending the defaulter to prison.

8. Three thousand, five hundred and forty-two persons were sentenced to simple imprisonment: though the proportion to the total number of sentences is slightly smaller than last year it represents an undesirable increase in actual numbers. His Excellency in Council agrees with the Inspector-General that a form of detention in which prisoners can sit all day in idleness is likely to do more harm than good.

9. There was a marked increase in the number of punishments of prisoners. Offences in connection with work and prohibited articles were responsible for a large part of the increase, and the Inspector-General attributes it to the enforcement of stricter discipline. This is borne out by the fact that there has been a similar increase in the number of punishments of the warder staff.

The Governor in Council recognises that the closer attention by the superior jail staff and the introduction of reforms throws additional work and responsibility upon the staff and acknowledges the good work done by the Inspector-General and the officers specially mentioned in Lieutenant-Colonel Hamilton's interesting report.

ORDER—Ordered that a copy of this resolution be forwarded to the Inspector-General of Prisons, Bengal, for information and guidance.

ORDERED that a copy of this resolution and a copy of the report be submitted to the Government of India in the Home Department.

ORDERED ALSO that the resolution be published in the *Calcutta Gazette*.

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for June 1928.

I. **Character of the season.**—During the month under review rainfall was general over the Presidency. Precipitation was below the normal only in eight districts and was above the average in the rest of the province. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Weeding of autumn crops continued during the early part of the month. Preparatory tillage for and sowing of winter paddy in seedbeds were progressing satisfactorily. Transplantation was started in places from the latter part of the month under favourable conditions.

III. **State of standing crops.**—The standing crops were growing well.

IV. **Prospects and probable outturn.**—The outlook for deep-water paddy and sugarcane is generally hopeful. A satisfactory outturn of autumn paddy is anticipated, on the whole.

V. **Damage to standing crops.**—No damage except that by insect-pests in places of the 24-Parganas is reported.

VI. **Condition of agricultural stock.**—The condition of live-stock was generally fair. Sporadic cases of cattle-disease were, however, reported from fourteen districts.

VII. **Failure of pasturage and fodder.**—Insufficiency of fodder was reported from parts of the 24-Parganas, Nadia, Murshidabad, Birbhum and Dinajpur.

VIII. **Prices of food-grains.**—During the second fortnight of the month the retail price of common rice of the cheapest quality rose in three districts, fell in nine and remained stationary in the rest of the Presidency. It varied from 4¾ seers per rupee in Rangpur to 7½ seers per rupee in Chittagong.

IX. **Condition of agricultural population.**—The condition of the agricultural population was fair, on the whole, except in parts of Nadia, Murshidabad, Birbhum, Bankura, Dinajpur and Malda, where distress continued to prevail owing to a partial failure of the winter rice crop. In Nadia and Murshidabad, test relief works were closed; elsewhere they continued to help the people.

If the discounted value of the treasury bills tendered is not an exact multiple of the issue price per cent. of the loan or bonds applied for, the tenderer will have to pay in cash the amount required to make up an exact multiple of such issue price.

14. If partial allotment is made in respect of subscriptions received in cash on the 7th August 1928, a proportionate refund will be made at the time of issue of the new securities. No interest will be paid on the amount so refunded.

W. H. NELSON,

Offg. Secretary to the Government of Bengal.

RULES.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil Channel shall stop at the prescribed toll stations notified in the Schedule attached for the purpose of assessment, or check, of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below:—

Class I—To include all vessels of the usual native types of build.

Class II—To include all steamers, flats and barges, and such other square built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of Class I, whether laden or empty, shall, for the purposes of these rules, be determined by the following measurements:—

(A) The product of one-quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(B) The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(C) The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in Class II the tonnage shall be determined as follows:—

The tonnage of steamers shall be the registered tonnage as given in the certificate of the survey of the steamer.

Toll shall be levied on the actual weight of cargo on steamers, flats, barges and other vessels included in this class, as declared in the manifests. When the registered tonnage of a steamer or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3. For square built boats the total maundage, as determined under rules for Class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel except as exempted under rule 10 shall be furnished at the toll station of entry with a ticket on which the name of the serang, manji or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains, the amount of toll charged and the number of days for which the ticket will remain current, shall be entered.

6. This ticket may be demanded and checked by any Navigation Officer while the vessel is within the toll-limits of the Bhil channel and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll station. If the ticket is not produced on demand by a Navigation Officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realised.

7. Vessels leaving the channel between two toll stations shall obtain a permit for so doing in Form No. 1 from the Collector of Tolls of the toll station of entry. In such cases the Collector of Tolls will issue a ticket in the usual form and also collect the same before the vessel is permitted to proceed.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the Collector of Tolls until the toll due has been paid. (13) The civilization associated with a language can only be taken by candidates who also offer the language itself.

(14) In subject 5, Vernacular Language, a candidate may offer any one of the following languages:—Assamese, Bengali, Burmese, Gujarati, Hindi, Kanarese, Malayalam, Marathi, Oriya, Punjabi, Sindhi, Tamil, Telugu, Urdu.

(15) A candidate for any of the subjects numbered 36 to 47 must have undergone laboratory training in an institution authorised to prepare candidates in that subject for a university degree and must send in a voucher to that effect from the head of the institution, two years' laboratory training being required for a science on the higher grade and one year's training for a science on the lower grade. For candidature for Geography or Experimental Psychology or Engineering or Agriculture (subjects 48, 50, 53, 54) a certificate of one year's training in an institution authorised to prepare candidates in that subject for a university degree is required. For the purpose of this rule the Thomason Civil Engineering College, Roorkee, will be treated as if it were an institution authorised to prepare candidates in Engineering for a university degree.

(16) As Vernacular Literature a candidate may offer the literature of any one of the following languages:—Bengali, Burmese, Gujarati, Hindi, Marathi, Tamil, Telugu, Urdu.

(17) From the marks assigned to candidates in each subject, such deduction will be made as the Public Service Commission may consider necessary in order to secure that no credit is allowed for merely superficial knowledge.

(18) If a candidate's handwriting is not easily legible, a deduction, which may be of considerable amount, will be made on this account from the total marks otherwise accruing to him.

(19) Credit will be given for good English, including orderly, effective and exact expression combined with due economy of words, in all the 54 subjects of the examination and not only in subjects 1 and 2 which are specially devoted to the English language.

(20) A list of the competitors shall be made out in order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor, and in that order, so many competitors, up to the determined number of appointments,† as are found by the Public Service Commission to be qualified by examination, shall be designated to be selected candidates for the Indian Civil Service, provided that the Governor General of India in Council is satisfied that they are duly qualified in other respects. Should any selected candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled or not. In the former case the candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected candidate.

(21) Selected candidates will be on probation for two years in the United Kingdom.

Special Rule applicable to Burman Candidates.

(22) (*i*) The term "Burman candidate" means a candidate domiciled in Burma both at the date of his birth and at the date when he applies to be admitted to the examination.

†Elsewhere than in Burma the number of appointments which will be announced for competition will not represent the total number of vacancies to be filled in India, as certain vacancies will be reserved in accordance with the pledge given by the Hon'ble Home Member in the Council of State on the 2nd March 1925 and will be filled, if necessary, by nomination for the purpose of adjusting communal inequalities which may arise from the results of the competitive examinations in London and India.

In the case of Burma the number of appointments announced for competition in 1929 will represent the total number of vacancies to be filled, and no appointments will be made by nomination.

(*ii*) A branch of the competitive examination confined to Burman candidates shall be held in Burma and no Burman candidate shall compete elsewhere in India.

(*iii*) Burman candidates shall apply to be admitted to the examination to the Chief Secretary to the Government of Burma before such date and in such form as the Governor General in Council shall prescribe and rules 3 (*i*) and 3 (*ii*) shall not apply to Burman candidates.

(*iv*) Burman candidates shall not be included in the list made out under rule 20 but a separate list of Burman candidates shall be made out with reference to the determined number of appointments available in Burma to which the provisions of rule 20 shall apply.

Sub-section 2. A candidate who is not required by sub-section (1) to offer a vernacular named in column 2 will offer the vernacular named in column 3 against his province if any such vernacular is named, unless he is already familiar with the vernacular there named or with a closely allied one.

Candidates who at the ordinary session fall short of this adequate proficiency but show such minimum proficiency as is evidence that with a moderate amount of practice they can attain full proficiency, will receive marks ranging between 1 and 100; they will be allowed to proceed to India and will on their arrival there be subjected to such further tests in riding as may be prescribed by their Local Government.*

Any candidate who at the ordinary session fails to show a minimum proficiency will be examined again at a special session. If he then attains adequate proficiency, he will not be subjected to further tests in India. If he attains minimum proficiency, he will be allowed to proceed to India under the same condition as if he had attained minimum proficiency at the ordinary session. No credit in marks will be given for any performance at a special session.

Probationers may also be examined in riding at such time or times as the Commissioners may appoint during the course of the probationary period.

(9) Such deductions as the Civil Service Commissioners may consider necessary will be made from the marks assigned to candidates at the Intermediate and Final Examinations, in order to secure that no credit is allowed for merely superficial knowledge.

(10) The Civil Service Commissioners will prepare lists of the candidates in order of merit; the order for the one-year probationers being based on the sum of the marks obtained by the candidates at the Open Competitive and Final Examinations, the order for the two-year probationers being based on the sum of the marks obtained by the candidates at the Intermediate and Final Examinations.

*Such candidates will receive no increase to their initial pay until they have passed the further tests in question to the satisfaction of their Local Government.

(11) The selected candidates whose performance in the compulsory subjects* of the Final Examination is such as to satisfy the Civil Service Commissioners, and who have also satisfied the Commissioners of their eligibility in respect of nationality, age, health, character, and conduct during the period of probation, shall be certified by the Commissioners to be entitled to be appointed to the Indian Civil Service, provided that they shall comply with the regulations in force, at the time, for that Service.

(12) If any candidate is prevented by sickness or any other adequate cause from attending the Final Examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination. A selected candidate absent for such adequate cause from the Intermediate Examination may, under similar conditions, be allowed to appear at the Intermediate Examination a year later or at a special examination, or may be excused the Intermediate Examination and allowed to appear for the Final Examination in regular course.

Any candidate who at the Intermediate Examination shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of selected candidates.

ANNOUNCEMENTS

made by the Civil Service Commissioners with the authority of the Secretary of State for India in Council:—

(*i*) Selected candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the public service will rank before every other consideration.

(*ii*) An allowance of £300 a year, or, in the case of Selected Candidates possessing an Indian domicile, an allowance of £350 a year will be given to any candidate who passes his probation at one of the Universities or other Institutions that have been approved for the purpose by the Secretary of State for India in Council.

In the case of Selected Candidates on probation for one year the allowance will be payable in four equal instalments on the following dates respectively: December 24th after his selection, March 25th, June 25th and after signature of Covenant on appointment to the Service.

In the case of Selected Candidates on probation for two years the allowance will be payable in eight equal instalments, the first on December 24th after selection, the second to the seventh on the six following quarter days and the eighth after signature of Covenant on appointment to the Service.

The payment of the various instalments of the allowance except the final instalment, and, in the case of the two-year probationers, the instalment payable at the end of the first year of probation, will be conditional on the receipt by the Secretary of State through the Civil Service Commissioners of a certificate that the candidate has fulfilled up to date the requirements of the authorities and shown satisfactory conduct at the approved Institution.

If an Indian Government Scholar becomes a selected candidate for the Indian Civil Service, his scholarship stipend shall cease to be paid with effect from the 1st October of the year in which he becomes a selected candidate. He may, however, provided he has executed the agreement referred to in (*iii*) below, be granted on, or at any time after, the 1st October, an advance on account of the instalment of the allowance payable on the 24th December.

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

N. B.—The Secretary of State for India gives notice that the amount of the allowances will be reconsidered in 1928, with a view to a possible reduction with effect from the instalment payable in December, 1928.

(*iii*) Each Candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety jointly and severally to refund all moneys he may have received from the Secretary of State for India in the event of:—

(1) his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Indian Civil Service, or

(2) his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.

* The compulsory subjects include riding, and a candidate who fails at the end of the period of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding will be liable to have his name removed from the list of selected candidates.

(*iv*) All candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force they may be required to make for the pensions of their families. The stamps payable on these covenants amount to £1.

(*v*) A First-Class passage to India will be engaged for selected candidates with a view to their proceeding to India after they have signed their covenants.

(*vi*) Candidates appointed to the Indian Civil Service after undergoing one year's probation will be senior to those appointed in the same year after undergoing two years' probation. The seniority of candidates of each class *inter se* will be determined by the order in which their names appear on the lists referred to in clause (10) of the egulations.

(*vii*) A candidate who fails to satisfy the Civil Service Commissioners at the final Examination held in any year will be definitely rejected unless the Secretary of State in Council shall, after reference to the Civil Service Commissioners, allow him to sit for re-examination in the subject or subjects in which he failed. In general a candidate who is allowed re-examination will be required to forfeit the whole or part of the final instalment of his allowance, but if it appears to the Secretary of State in Council, after reference to the Civil Service Commissioners, that his failure to pass the examination was due to circumstances wholly exceptional and beyond his control such forfeit of his allowance will not be required.

(*viii*) "Overseas pay" will not be admissible to Indian members of the Indian Civil Service selected at Open Competitive Examinations held in London in 1925 and subsequent years.
